Fourth Quarter Fiscal Year 2021 Operating Results

For the quarter ended March 31, 2021, Capital Southwest reported total investment income of \$17.2 million, compared to \$19.0 million in the prior quarter. The decrease in total investment income was primarily attributable to prepayment fees and a one-time dividend received in the prior quarter, partially offset by an increase in average debt investments outstanding.

For the quarter ended March 31, 2021, total operating expenses (excluding interest expense) were \$3.6 million as compared to \$4.5 million in the prior quarter. The decrease was primarily related to a higher bonus accrual in the prior quarter due to the Company's performance.

For the quarter ended March 31, 2021, interest expense was \$4.7 million as compared to the \$4.5 million in the prior quarter. The increase during the quarter was due to an increase in average debt outstanding as compared to the prior quarter.

For the quarter ended March 31, 2021, total pre-tax net investment income was \$8.9 million, compared to \$10.0 million in the prior quarter.

For the quarter ended March 31, 2021, Capital Southwest had tax expense of \$0.9 million, compared to \$1.5 million in the prior quarter. The decrease was due to the write-off of the deferred tax asset at Capital Southwest Management Corporation, a wholly owned subsidiary that was a management company for CSWC ("CSMC"), in the prior quarter. Effective December 31, 2020, CSMC merged with and into CSWC, which is not subject to corporate federal income taxes. As such, the deferred tax asset was fully written off as of March 31, 2021.

During the quarter ended March 31, 2021, Capital Southwest recorded total net realized and unrealized gains on investments of \$2.6 million, compared to \$7.1 million in the prior quarter. For the quarter ended March 31, 2021, this included total net realized losses on investments of \$1.6 million and net unrealized appreciation on investments of \$4.2 million. The net increase in net assets resulting from operations was \$10.2 million for the quarter, compared to \$15.4 million in the prior quarter.

The Company's NAV per share at March 31, 2021 was \$16.01, as compared to \$15.74 at December 31, 2020. The increase in NAV per share from the prior quarter is primarily due to net unrealized appreciation on the investment portfolio and issuance of common stock at a premium to NAV per share under the Equity ATM Program (as described below).

Fiscal Year 2021 Operating Results

For the year ended March 31, 2021, Capital Southwest reported total investment income of \$68.1 million, compared to \$62.0 million in the prior year. The increase in investment income was primarily attributable to an increase in average debt investments outstanding, partially offset by a decrease in dividend income due to the sale of Media Recovery, Inc. in the prior year and a decrease in dividend income received from I-45 SLF.

For the year ended March 31, 2021, total operating expenses (excluding interest expense) were \$16.0 million, compared to \$15.9 million in the prior year.

For the year ended March 31, 2021, there was interest expense of \$17.9 million, compared to \$15.8 million in the prior year. The increase in interest expense during the year was due to an increase in average debt outstanding as compared to the prior year.

For the year ended March 31, 2021, total pre-tax net investment income was \$34.1 million, compared to \$30.3 million in the prior year.

For the year ended March 31, 2021, there was tax expense of \$2.4 million recorded, compared to \$2.1 million in the prior year. The increase in tax expense versus the prior year was due primarily to the write-off of the deferred tax asset at CSMC at the time of the merger with and into CSWC, partially offset by a decrease in excise tax.

During the year ended March 31, 2021, Capital Southwest recorded total net realized and unrealized gains on investments of \$20.2 million, which included net unrealized appreciation on investments of \$28.8 million and net realized losses of \$8.5 million. The net increase in net assets resulting from operations was \$50.9 million for the year, compared to the net decrease in net assets resulting from operations of \$22.4 million in the prior year, primarily due to net realized and unrealized gains on investments in the current year of \$20.2 million, compared to net realized and unrealized losses on investments of \$50.6 million in the prior year.

The Company's NAV per share at March 31, 2021 was \$16.01, as compared to \$15.13 at March 31, 2020. The increase in NAV per share from the prior year was primarily due to net unrealized appreciation on investments and the issuance of common stock at a premium to NAV per share under the Equity ATM Program.

The total net proceeds from the offering of the January 2026 Notes was \$138.6 million, before offering expenses payable by us. The January 2026 Notes mature on January 31, 2026 and may be redeemed in whole or in part at any time prior to October 31, 2025, at par plus a "make-whole" premium, and thereafter at par. SBA debentures are loans issued to an SBIC which have interest payable semi-annually and a ten-year maturity. The interest rate is fixed shortly after issuance at a market-driven spread over U.S. Treasury Notes with ten-year maturities. Current statutes and regulations permit SBIC I to borrow up to \$175 million in SBA debentures.

Share Repurchase Program

On January 25, 2016, Capital Southwest announced that its Board of Directors (the "Board") authorized the repurchase of up to \$10 million of its common stock at prices below the Company's NAV per share as reported in its most recent financial statements. The Board authorized the share repurchase program because it believes that the Company's common stock may be undervalued from time to time due to market volatility.

On March 26, 2020, the aggregate amount of the Company's common stock purchased (inclusive of commission fees) pursuant to the share repurchase agreement met the threshold set forth in the share repurchase agreement and, as a result, the Company ceased purchasing common stock under the share repurchase program on such date. Accordingly, during the year ended March 31, 2021, the Company did not repurchase any shares of the Company's common stock under the share repurchase program.

Declared Dividend of \$0.53 Per Share for Quarter Ended June 30, 2021

On April 21, 2021, the Board declared a total dividend of \$0.53 per share for the quarter ended June 30, 2021, comprised of a regular dividend of \$0.43 per share and a supplemental dividend of \$0.10 per share.

The Company's dividend will be payable as follows:

Amount Per Share:	\$0.53
Ex-Dividend Date:	June 14, 2021
Record Date:	June 15, 2021
Payment Date:	June 30, 2021

When declaring dividends, the Board reviews estimates of taxable income available for distribution, which may differ from net investment income under generally accepted accounting principles. The final determination of taxable income for each year, as well as the tax attributes for dividends in such year, will be made after the close of the tax year.

Capital Southwest maintains a dividend reinvestment plan ("DRIP") that provides for the reinvestment of dividends on behalf of its registered stockholders who hold their shares with Capital Southwest's transfer agent and registrar, American Stock Transfer and Trust Company. Under the DRIP, if the Company declares a dividend, registered stockholders who have opted into the DRIP by the dividend record date will have their dividend automatically reinvested into additional shares of Capital Southwest common stock.
