Notes to Consolidated Schedule of Investments

(a) Equity

The percentages in the “Equity” column express equity interests held by Capital Southwest Corporation and Capital Southwest Venture Corporation (together, the “Company”) in each issuer. Each percentage represents the amount of the issuer’s common stock the Company owns or can acquire as a percentage of the issuer’s total outstanding common stock, plus stock reserved for all warrants, convertible securities and employee stock options.

(b) Investments

Unrestricted securities (indicated by ‡) are freely marketable securities having readily available market quotations. All other securities are restricted securities, which are subject to one or more restrictions on resale and are not freely marketable. At December 31, 2012 and March 31, 2012, restricted securities represented approximately 70.1% and 56.9% of the value of the consolidated investment portfolio, respectively.

Our investments are carried at fair value in accordance with the Investment Company Act of 1940 (the “1940 Act”) and FASB Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures. In accordance with the 1940 Act, unrestricted minority-owned publicly traded securities, for which the market quotations are readily available, are valued at the closing sale price for the NYSE listed securities and the lower of the closing bid price or the last sale price for NASDAQ securities on the valuation date; other privately held securities are valued as determined in good faith by our Board of Directors.

ASC 820 defines fair value in terms of the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the “exit price”) and excludes transaction costs. Under ASC 820, the fair value measurement also assumes that the transaction to sell an asset occurs in the principal market for the asset or, in the absence of a principal market, the most advantageous market for the asset. The principal market is the market in which the reporting entity would sell or transfer the asset with the greatest volume and level of activity for the asset. In determining the principal market for an asset or liability under ASC 820, it is assumed that the reporting entity has access to the market as of the measurement date.

(c) Value

Debt Securities are generally valued on the basis of the price the security would command in order to provide a yield-to-maturity equivalent to the present yield of comparable debt instruments of similar quality. Issuers whose debt securities are judged to be of poor quality and doubtful collectability may instead be valued by assigning percentage discounts commensurate with the quality of such debt securities. Debt securities may also be valued based on the resulting value from the sale of the business at the estimated fair market value.

Partnership Interests, Preferred Equity and Common Equity, including unrestricted marketable securities, are valued at the closing sale price for the NYSE listed securities and the lower of the closing bid price or the last sale price for NASDAQ securities on the valuation date. For those without a principal market, our Board of Directors considers the financial condition and operating results of the issuer; the long-term potential of the business of the issuer; the market for and recent sales prices of the issuer’s securities; the values of similar securities issued by companies in similar businesses; and the proportion of the issuer’s securities owned by the Company. Investments in certain entities that calculate net asset value per share (or its equivalent) and for which fair market value is not readily determinable are valued using the net asset value per share (or its equivalent, such as member units or ownership interest in partners’ capital to which a proportionate share of net assets is attributed) of the investment.

Equity Warrants are valued on the basis of the Black-Scholes model which defines the market value of a warrant in relation to the market price of its common stock, share price volatility, and time to maturity.

(d) Agreements between Certain Issuers and the Company

Agreements between certain issuers and the Company provide that the issuer will bear substantially all costs in connection with the Company disposing such common stock, including those costs involved in registration under the Securities Act of 1933, but excluding underwriting discounts and commissions. These agreements cover common stock owned at December 31, 2012 and common stock which may be acquired thereafter through the exercise of warrants and conversion of debentures and preferred stock. They apply to restricted securities of all issuers in the investment portfolio of the Company except securities of the following issuers which are not obligated to bear registration costs: Humac Company and The Whitmore Manufacturing Company.

(e) Descriptions and Ownership Percentages

The descriptions of the companies and ownership percentages shown in the Consolidated Schedule of Investments were obtained from published reports and other sources believed to be reliable. Acquisition dates indicated are the dates specific securities were acquired, which may differ from the original investment dates. Certain securities were received in exchange for or upon conversion or exercise of other securities previously acquired.

Notes to Consolidated Financial Statements

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

Capital Southwest Corporation (“CSW”) was organized as a Texas corporation on April 19, 1961. Until September 1969, CSW operated as a licensee under the Small Business Investment Act of 1958. At that time, we transferred to our wholly-owned subsidiary, Capital Southwest Venture Corporation (“CSVC”), certain assets and our license as a small business investment company (“SBIC”). CSVC is a closed-end, non-diversified investment company registered under the Investment Company Act of 1940 (the “1940 Act”). Prior to March 30, 1988, CSW was registered as a closed-end, non-diversified investment company under the 1940 Act. On that date, CSW elected to become a Business Development Company (“BDC”) subject to the provisions of the 1940 Act, as amended by the Small Business Incentive Act of 1980. Because CSW wholly owns CSVC, the portfolios of both CSW and CSVC are referred to collectively as “our,” “we” and “us.” Capital Southwest Management Company (“CSMC”), a wholly-owned subsidiary of CSW, is the management company for CSW and CSVC. CSMC generally incurs all normal operating and administrative expenses, including, but not limited to, salaries and related benefits, rent, equipment and other administrative costs required for its day-to-day operations.

Our portfolio is a composite of companies, consisting of companies in which we have controlling interests, developing companies and marketable securities of established publicly traded companies. We make available significant managerial assistance to the companies in which we invest and believe that providing managerial assistance to such investee companies is critical to their business development activities. CSMC receives a monthly fixed fee for management services provided to certain of its control portfolio companies.

Basis of Presentation

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). Under rules and regulations applicable to investment companies, we are precluded from consolidating any entity other than another investment company. An exception to this general principle occurs if the investment company has an investment in an operating company that provides services to the investment company. Accordingly, our consolidated financial statements include CSMC, our management company.

The financial statements included herein have been prepared in accordance with GAAP for interim financial information and the instructions to Form 10-Q and Article 6 of Regulation S-X. The financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended March 31, 2012 (the “Form 10-K”), as filed with the Securities and Exchange Commission (SEC). Certain information and footnotes normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, although we believe that the disclosures provided in this Form 10-Q are adequate for a fair presentation. The information reflects all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the results of operations for the interim period.

Portfolio Investment Classification

We classify our investments in accordance with the requirements of the 1940 Act. Under the 1940 Act, “Control Investments” are defined as investments in which we own more than 25% of the voting securities or have rights to maintain greater than 50% of the board representation; “Affiliated Investments” are defined as investments in which we own between 5% and 25% of the voting securities; and “Non-Control/Non-Affiliated Investments” are defined as investments that are neither “Control Investments” nor “Affiliated Investments.”

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of the consolidated financial statements of CSW, CSVC and CSMC.

Fair Value Measurements We adopted FASB ASC 820 on April 1, 2008. ASC 820 (1) creates a single definition of fair value, (2) establishes a framework for measuring fair value, and (3) expands disclosure requirements about items measured at fair value. ASC 820 applies to both items recognized and reported at fair value in the financial statements and items disclosed at fair value in the notes to the financial statements. ASC 820 does not change existing accounting rules governing what can or what must be recognized and reported at fair value in our financial statements, or disclosed at fair value in our notes to financial statements. Additionally, ASC 820 does not eliminate practicability exceptions that exist in accounting pronouncements amended by this Topic when measuring fair value.

Fair value is generally determined based on quoted market prices in the active markets for identical assets or liabilities. If quoted market prices are not available, we use valuation techniques that place greater reliance on observable inputs and less reliance on unobservable inputs. Due to the inherent uncertainty in the valuation process, our estimate of fair value may differ materially from the values that would have been used had a ready market for the securities existed. In addition, changes in the market environment, portfolio company performance and other events may occur over the lives of the investments that may cause the gains or losses ultimately realized on these investments to be materially different than the valuations currently assigned. We determine the fair value of each individual investment and record changes in fair value as unrealized appreciation or depreciation.

Pursuant to our internal valuation process, each portfolio company is valued once a quarter. In addition to our internal valuation process, our Board of Directors retains a nationally recognized firm to provide limited scope third party valuation services on certain portfolio investments at the end of our fiscal year. Our Board of Directors retained Duff & Phelps to provide limited scope third party valuation services on six investments comprising 85.8% of our net asset value at March 31, 2012. For full disclosure of Duff & Phelps’ services, see page 5 of the Form 10-K under the heading “Determination of Net Asset Value and Portfolio Valuation Process.”

We believe our investments at December 31, 2012 and March 31, 2012 approximate fair value based on the market in which we operate and other conditions in existence as of these dates.

Investments Investments are stated at fair value determined by our Board of Directors as described in Notes to the Consolidated Schedule of Investments and Note 3 below. The average cost method is used in determining cost of investments sold. Investments are recorded on a trade date basis.

Cash and Cash Equivalents Cash and cash equivalents consist of highly liquid investments with an original maturity of three months or less at the date of purchase. Cash and cash equivalents are carried at cost, which approximates fair value.

Segment Information We operate and manage our business in a singular segment. As an investment company, we invest in portfolio companies in various industries and geographic areas as presented in the Consolidated Schedule of Investments.

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Interest and Dividend Income Interest and dividend income is recorded on an accrual basis to the extent amounts are expected to be collected. Dividend income is recorded at the ex-dividend date for marketable securities and restricted securities. In accordance with our valuation policy, accrued interest and dividend income is evaluated periodically for collectability. When a debt or loan becomes 90 days or more past due, and if we otherwise do not expect the debtor to be able to service all of its debt or other obligations, we will generally establish a reserve against the interest income, thereby placing the loan or debt security's status on non-accrual basis, and cease to recognize interest income on that loan or debt security until the borrower has demonstrated the ability and intent to pay contractual amounts due. If a loan or debt security's status significantly improves regarding ability to service debt or other obligations, it will be restored to accrual basis.

Federal Income Taxes CSW and CSVC have elected and intend to comply with the requirements of the Internal Revenue Code (IRC) necessary to qualify as regulated investment companies (RICs). By meeting these requirements, they will not be subject to corporate federal income taxes on ordinary income distributed to shareholders. In order to comply as a RIC, each company is required to timely distribute to its shareholders at least 90% of investment company taxable income, as defined by the IRC, each year. Investment company taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses. Investment company taxable income generally excludes net unrealized appreciation or depreciation, as investment gains and losses are not included in investment company taxable income until they are realized.

In addition to the requirement that we must annually distribute at least 90% of our investment company taxable income, we may either distribute or retain our realized net capital gains from investments, but any net capital gains not distributed may be subject to corporate level tax. Historically, we have not distributed net capital gains; however, during the nine months ended December 31, 2012, we distributed capital gains dividends in the amount of \$17.59 per share to our shareholders. When we retain the capital gains, they are classified as a "deemed distribution" to our shareholders and are subject to our corporate tax rate of 35%. As an investment company that qualifies as a RIC under the IRC, federal income taxes payable on security gains that we elect to retain are accrued only on the last day of our tax year, December 31. Any capital gains actually distributed to shareholders are generally taxable to the shareholders as long-term capital gains. See Note 4 for further discussion.

CSMC, a wholly owned subsidiary of CSW, is not a RIC and is required to pay taxes at the current corporate rate.

We account for interest and penalties as part of operating expenses. There were no interest or penalties incurred during the nine months ended December 31, 2012 and 2011.

Deferred Taxes CSMC sponsors a qualified defined benefit pension plan which covers its employees and employees of certain of its controlled affiliates. Deferred taxes related to the qualified defined benefit pension plan are recorded as incurred.

Stock-Based Compensation We account for our stock-based compensation using the fair value method, as prescribed by ASC 718, *Compensation – Stock Compensation*. Accordingly, we recognize stock-based compensation cost over the straight-line method for all share-based payments awards granted to employees. The fair value of stock options are determined on the date of grant using the Black-Scholes pricing model and are expensed over the vesting period of the related stock options. For restricted stock awards, we measured the grant date fair value based upon the market price of our common stock on the date of the grant and will amortize this fair value to share-based compensation expense over the vesting term. See Note 6 for further discussion.

Defined Pension Benefits and Other Postretirement Plans We record annual amounts relating to the defined benefit pension plan based on calculations, which include various actuarial assumptions such as discount rates and assumed rates of return depending on the pension plan. Material changes in pension costs may occur in the future due to changes in the discount rate, changes in the expected long-term rate of return, changes in level of contributions to the plans and other factors. The funded status is the difference between the fair value of plan assets and the benefit obligation. We recognize changes in the funded status of defined benefit plan in the Statement of Assets and Liabilities in the year in which the changes occur and measure defined benefit plan assets and obligations as of the date of the employer's fiscal year-end. We presently use March 31 as the measurement date for our defined benefit plan.

Concentration of Risk We place our idle cash in financial institutions, and at times, such balances may be in excess of the federally insured limits.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, Fair Value Measurements (ASC 820), Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs ("ASU 2011-04"). ASU 2011-04 results in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. ASU 2011-04 is effective for interim and annual reporting periods beginning after December 15, 2011. The adoption of ASU 2011-04 did not have a significant impact on our financial condition and results of operations. See Note 3 Investments, for further information regarding valuation techniques and quantitative information about the significant unobservable inputs utilized by our Company to value Level 3 investments.

3. INVESTMENTS

We record our investments at fair value as determined in good faith by our Board of Directors in accordance with GAAP. When available, we base the fair value of our investments on directly observable market prices or on market data derived for comparable assets. For all other investments, inputs used to measure fair value reflect management's best estimate of assumptions that would be used by market participants in pricing the investments in a hypothetical transaction.

The levels of fair value inputs used to measure our investments are characterized in accordance with the fair value hierarchy established by the Accounting Standards Codification (“ASC”). We use judgment and consider factors specific to the investment in determining the significance of an input to a fair value measurement. While management believes our valuation methodologies are appropriate and consistent with market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. The three levels of the fair value hierarchy and investments that fall into each of the levels are described below:

- *Level 1:* Investments whose values are based on unadjusted quoted prices in active markets for identical assets or liabilities that we have the ability to access. We use Level 1 inputs for publicly traded securities. Such investments are valued at the closing price for listed securities and at the lower of the closing bid price or the closing sale price for NASDAQ securities on the valuation date.
- *Level 2:* Investments whose values are based on observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in non-active markets, quoted prices for similar instruments in active markets and similar data. We did not value any of our investments using Level 2 inputs as of December 31, 2012 and 2011.
- *Level 3:* Investments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management’s own assumptions about the assumptions a market participant would use in pricing the investment. We use Level 3 inputs for measuring the fair value of approximately 70.1% of our investments.

As required by ASC 820, when the inputs used to measure fair value fall within different levels of the hierarchy, the level within the fair value measurement is categorized based on the lowest level input that is significant to the fair value measurement which may include inputs that are observable (Levels 1 and 2) and unobservable (Level 3). Therefore, gains and losses for such investments categorized within the Level 3 table below may include changes in fair value that are attributable to both observable inputs (Levels 1 and 2) and unobservable (Level 3). We conduct reviews of fair value hierarchy classifications on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification of certain investments.

Unobservable inputs are those inputs for which little or no market data exists and, therefore, require an entity to develop its own assumptions. The fair value determination of each portfolio company requires one or more of the following unobservable inputs:

- Financial information obtained from each portfolio company, including audited and unaudited statements of operations and balance sheets for the most recent period available as compared to budgeted numbers;
- Current and projected financial condition of the portfolio company;
- Current and projected ability of the portfolio company to service its debt obligations;
- Projected operating results of the portfolio company;

- Current information regarding any offers to purchase the investment or recent private sales transactions;
- Current ability of the portfolio company to raise any additional financing as needed;
- Change in the economic environment which may have a material impact on the operating results of the portfolio company;
- Qualitative assessment of key management;
- Contractual rights, obligations or restrictions associated with the investment; and
- Other factors deemed relevant.

Preferred Stock and Common Stock

The significant unobservable inputs used in the fair value measurement of our equity securities are EBITDA multiples, revenue multiples, net book values, tangible book value multiples, and the weighted average costs of capital (“WACC”). Generally, increases or decreases in EBITDA or revenue multiple inputs result in a higher or lower fair value measurement, respectively. Generally, increases or decreases in WACC result in a lower or higher fair value measurement, respectively. However, due to the nature of certain investments, fair value measurements may be based on other criteria, such as third party-appraisals. For recent investments, we generally rely on our cost basis to determine the fair value unless fair value is deemed to have departed from this level.

Debt Securities

The significant unobservable inputs used in the fair value measurement of our debt securities are risk adjusted discount factors used in the yield valuation technique and probability of principal recovery. Significant increase or decrease in any of these valuation inputs in isolation would result in a significantly lower or higher fair value measurement. However, due to the nature of certain investments, fair value measurements may be based on other criteria, such as third party inputs.

Limited Partnership or Limited Liability Company Interests

For recent investments, we evaluate limited partnership or limited liability company interests at cost, which is deemed to represent market value, unless or until there is substantive evidence that cost does not correspond to fair value. Thereafter, these securities are generally valued at our percentage interest of the fund or company’s calculated net asset value, unless there is substantive evidence that the net asset value does not correspond to fair value. All investments of each fund are valued in accordance with ASC 820.

Warrants

We generally use the Black-Scholes option pricing model to determine the fair value of warrants held in our portfolio. Option pricing models, including the Black-Scholes model, require the use of subjective inputs, including expected volatility, expected life, expected dividend rate, and expected risk-free rate of return. In the Black-Scholes model, variation in the expected volatility or expected term assumptions has a significant impact on fair value.

The table below presents the valuation technique and quantitative information about the significant unobservable inputs utilized by the Company to value our Level 3 investments as of December 31, 2012. Unobservable inputs are those inputs for which little or no market data exists and therefore require an entity to develop its own assumptions. The table is not intended to be all inclusive, but instead captures the significant unobservable inputs relevant to our determination of fair value.

Type	Valuation Technique	Fair Value (in millions)	Unobservable Input	Range	Weighted Average
Preferred & Common Equity	Market Approach	\$ 325.5	EBITDA Multiple	3.25x - 6.56x	6.42x
	Market Approach	\$ 10.9	Revenue Multiple	0.30x – 1.70x	0.95x
	Market Approach	\$ 6.7	Cash and Asset Value	NA	NA
	Discounted Cash Flow	\$ 0.8	Discount Rate	1.81%	1.81%
	Market Approach	\$ 2.5	Multiple of Tangible Book Value	1.05x	1.05x
	Market Approach	\$ 22.6	Recent Transaction Price	NA	NA
	Market Approach	\$ 0.2	Market Value of Held Securities	NA	NA
		<u>\$ 369.2</u>			
Warrants	Black Scholes Pricing Model	\$ 0.0	Stock Price and Expected Volatility	\$ 0.00	\$ 0.00
Debt	Discounted Cash Flow	\$ 4.3	Discount Rate	10.00%	10.00%
	Recent Transaction Price	\$ 3.0	Recent Transaction Price	NA	NA
		<u>\$ 7.3</u>			
Partnership Interests	Net Asset Value*	\$ 10.0	Fund Value	NA	NA
	Total	<u>\$ 386.5</u>			

* All funds are valued in accordance with ASC 820.

As of December 31, 2012 and March 31, 2012, 70.1% and 56.9%, respectively, of our portfolio investments were categorized as Level 3.

The following fair value hierarchy tables set forth our investment portfolio by level as of December 31, 2012 and March 31, 2012 (in millions):

Asset Category	Total	Fair Value Measurements at 12/31/12 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Debt	\$ 7.3	\$ –	\$ –	\$ 7.3
Partnership Interests	10.0	–	–	10.0
Preferred Equity	44.1	–	–	44.1
Common Equity	489.9	164.8	–	325.1
Total Investments	<u>\$ 551.3</u>	<u>\$ 164.8</u>	<u>\$ –</u>	<u>\$ 386.5</u>

Asset Category	Fair Value Measurements at 3/31/12 Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Debt	\$ 11.2	\$ -	\$ -	\$ 11.2
Partnership Interests	11.0	-	-	11.0
Preferred Equity	33.9	-	-	33.9
Common Equity	502.4	240.7	-	261.7
Total Investments	\$ 558.5	\$ 240.7	\$ -	\$ 317.8

The following table provides a summary of changes in the fair value of investments measured using Level 3 inputs during the nine months ended December 31, 2012 (in millions):

	Fair Value 3/31/12	Net Unrealized Appreciation (Depreciation)	Net Changes from Unrealized to Realized	New / Add-On Invest- ments	Conversion of Security from Debt to Equity	Fair Value 12/31/12
Debt	\$ 11.2	\$ (4.2)	\$ -	\$ 3.5	\$ (3.2)	\$ 7.3
Partnership Interest	11.0	(0.4)	(0.8)	0.2	-	10.0
Preferred Equity	33.9	11.8	(4.8)	-	3.2	44.1
Common Equity	261.7	64.1	(0.7)	-	-	325.1
Total Investments	\$ 317.8	\$ 71.3	\$ (6.3)	\$ 3.7	\$ -	\$ 386.5

The total unrealized gains included in earnings that related to assets still held at report date for the nine months ended December 31, 2012 and 2011 were \$78,199,034 and \$10,243,394, respectively.

4. INCOME TAXES

We operate to qualify as a RIC under Subchapter M of the IRC and have a calendar tax year end of December 31. In order to qualify as a RIC, we must annually distribute at least 90% of our investment company taxable ordinary income, based on our tax year, to our shareholders in a timely manner. Investment company ordinary income includes net short-term capital gains but excludes net long-term capital gains. A RIC is not subject to federal income tax on the portion of its ordinary income and long-term capital gains that are distributed to its shareholders, including "deemed distributions" discussed below. As permitted by the Code, a RIC can designate dividends paid in the subsequent tax year as dividends of current year ordinary income and net long-term gains if those dividends are both declared by the extended due date of the RIC's federal income tax return and paid to shareholders by the last day of the subsequent tax year.

We have distributed or intend to distribute sufficient dividends to eliminate taxable income for our completed tax years. If we fail to satisfy the 90% distribution requirement or otherwise fail to qualify as a RIC in any tax year, we would be subject to tax in such year on all of our taxable income, regardless of whether we made any distributions to our shareholders. For the tax years ended December 31, 2012 and 2011, we declared and paid ordinary dividends in the amounts of \$3,025,032 and \$3,003,030, respectively.

Additionally, we are subject to a nondeductible federal excise tax of 4% if we do not distribute at least 98% of our investment company ordinary taxable income before the end of our tax year. For the tax years ended December 31, 2012 and 2011, we distributed 100% of our investment company ordinary taxable income. As a result, we have made no tax provisions for income taxes on ordinary taxable income for the tax years ended December 31, 2012 and 2011.

A RIC may elect to retain its long-term capital gains by designating them as “deemed distribution” to its shareholders and paying a federal tax rate of 35% on the long-term capital gains for the benefit of its shareholders. Shareholders then report their share of the retained capital gains on their income tax returns as if it had been received and report a tax credit for tax paid on their behalf by the RIC. Shareholders then add the amount of the “deemed distribution” net of such tax, to the basis of their shares.

- Historically, we have not distributed net capital gains; however, during the nine months ended December 31, 2012, we distributed capital gains dividends in the amount of \$17.59 per share to our shareholders. For the tax year ended December 31, 2012, we had net long-term capital gains of \$3,214,547 for tax purposes and \$2,319,012 for book purposes, which we elected to retain and treat as deemed distributions to our shareholders. For the tax year ended December 31, 2011, we had net long-term capital gains of \$3,568,376 for tax purposes and \$4,465,088 for book purposes, which we elected to retain and treat as deemed distributions to our shareholders.
- In order to make the election to retain capital gains, we incurred federal taxes on behalf of our shareholders in the amount of \$1,125,092 for the tax year ended December 31, 2012. For the tax year ended December 31, 2011, we incurred federal taxes on behalf of our shareholders in the amount of \$1,248,932.

For the quarters ended December 31, 2012 and 2011, CSW and CSVC qualified to be taxed as RICs. We intend to meet the applicable qualifications to be taxed as a RIC in future years. Management feels it is probable that we will maintain our RIC status for a period longer than one year. However, either company’s ability to meet certain portfolio diversification requirements of RICs in future years may not be controllable by such company.

CSMC, a wholly owned subsidiary of CSW, is not a RIC and is required to pay taxes at the current corporate rate. CSMC sponsors a qualified defined benefit pension plan which covers its employees and employees of certain of its wholly owned portfolio companies. Deferred taxes related to the qualified defined pension plan are recorded as incurred.

5. ACCUMULATED NET REALIZED GAINS (LOSSES) ON INVESTMENTS

Distributions made by RICs often differ from aggregate GAAP-basis undistributed net investment income and accumulated net realized gains (total GAAP-basis net realized gains). The principal cause is that required minimum fund distributions are based on income and gain amounts determined in accordance with federal income tax regulations, rather than GAAP. The differences created can be temporary, meaning that they will reverse in the future, or they can be permanent. In subsequent periods, when all or a portion of a temporary difference becomes a permanent difference, the amount of the permanent difference will be reclassified to “additional capital.”

We incur federal taxes on behalf of our shareholders as a result of our election to retain long-term capital gains. Historically, we have not distributed net capital gains; however, during the nine months ended December 31, 2012, we distributed capital gains dividends in the amount of \$17.59 per share to our shareholders. As of December 31, 2012, we had accumulated long-term capital gains of \$1,820,574. As of March 31, 2012 we had accumulated long-term capital gains of \$498,438. In accordance with the RIC rules, we elected to retain our long-term capital gains for the tax year ended December 31, 2012, pay the applicable income taxes of \$1,125,092, and designate the after-tax gain as “deemed distributions” to our shareholders. “Deemed distributions” are reclassified from accumulated net realized gains into additional paid in capital. As of December 31, 2012, we reclassified \$1,193,920 as “deemed distributions.”

6. EMPLOYEE STOCK OPTION PLANS

On July 20, 2009, shareholders approved our 2009 Stock Incentive Plan (the “2009 Plan”), which provides for the granting of stock options to employees and officers and authorizes the issuance of common stock upon exercise of such options for up to 140,000 shares. All options are granted at or above market price, generally expire up to ten years from the date of grant and are generally exercisable on or after the first anniversary of the date of grant in five annual installments. Options to purchase 38,750 shares at a price of \$76.74 (market price at the time of the grant) were granted on October 19, 2009. Additionally, options to purchase 20,000 shares at a price of \$95.79 (market price at time of the grant) were granted on March 22, 2010, options to purchase 15,000 shares at a price of \$88.20 were granted on July 19, 2010 and options to purchase 10,000 shares at a price of \$96.92 were granted on July 18, 2011. During the quarter ended December 31, 2012, 1,300 options were exercised, thus leaving 49,650 options outstanding and 70,250 options available for grant under the 2009 Plan.

We previously granted stock options under our 1999 Stock Option Plan (the “1999 Plan”), as approved by shareholders on July 19, 1999. The 1999 Plan expired on April 19, 2009. Options previously made under our 1999 Stock Option Plan and outstanding on July 20, 2009 continue in effect governed by provisions of the 1999 Plan. All options granted under the 1999 Plan were granted at or above market price, generally expire up to ten years from the date of grant and are generally exercisable on or after the first anniversary of the date of grant in five to ten annual installments. During the quarter ended December 31, 2012, 4,000 options were forfeited and 1,015 options were exercised, thus leaving 63,500 options outstanding under the 1999 Plan.

We recognize compensation cost over the straight-line method for all share-based payments granted on or after that date and for all awards granted to employees prior to April 1, 2006 that remain unvested on that date. The fair value of stock options are determined on the date of grant using the Black-Scholes pricing model and are expensed over the vesting period of the related stock options. Accordingly, for the quarters ended December 31, 2012 and 2011, we recognized compensation expense of \$33,769 and \$253,350, respectively.

As of December 31, 2012, the total remaining unrecognized compensation cost related to non-vested stock options was \$1,040,698, which will be amortized over the remaining weighted average service period of approximately 1.5 years.

The following table summarizes the 2009 Plan and the 1999 Plan price per option at grant date using the Black-Scholes pricing model:

Date of Issuance	Weighted Average Fair Value	Black-Scholes Pricing Model Assumptions			Expected Life (in years)
		Expected Dividend Yield	Risk-Free Interest Rate	Expected Volatility	
2009 Plan					
July 18, 2011	\$ 33.07	0.83%	1.45%	40.0%	5
July 19, 2010	\$ 28.58	0.91%	1.73%	37.5%	5
March 22, 2010	\$ 32.56	0.84%	2.43%	37.8%	5
October 19, 2009	\$ 25.36	1.04%	2.36%	37.6%	5
1999 Plan					
July 30, 2008	\$ 29.93	0.62%	3.36%	20.2%	5
July 21, 2008	\$ 27.35	0.67%	3.41%	20.2%	5
July 16, 2007	\$ 41.78	0.39%	4.95%	19.9%	5
July 17, 2006	\$ 33.05	0.61%	5.04%	21.2%	7
May 15, 2006	\$ 31.28	0.64%	5.08%	21.1%	7

The following table summarizes activity in the 2009 Plan and the 1999 Plan as of December 31, 2012:

	Number of Shares	Weighted Average Exercise Price
2009 Plan		
Balance at March 31, 2011	73,750	\$ 84.24
Granted	10,000	96.92
Exercised	—	—
Canceled / Forfeited	—	—
Balance at March 31, 2012	83,750	\$ 85.75
Granted	—	—
Exercised	(20,100)	79.91
Canceled / Forfeited	(14,000)	98.64
Balance at December 31, 2012	49,650	\$ 88.11
1999 Plan		
Balance at March 31, 2011	96,500	\$ 114.78
Granted	—	—
Exercised	(1,500)	65.70
Canceled / Forfeited	—	—
Balance at March 31, 2012	95,000	\$ 113.63
Granted	—	—
Exercised	(17,105)	95.55
Canceled / Forfeited	(14,395)	111.14
Balance at December 31, 2012	63,500	\$ 130.80
Combined Balance at December 31, 2012	113,150	\$ 112.06

December 31, 2012	Weighted Average Aggregate		Value
	Intrinsic	Remaining Contractual Term	
Outstanding	1.5 years		\$ 3,534,415
Exercisable	1.0 years		\$ 2,263,512

At December 31, 2012, the range of exercise prices and weighted-average remaining contractual life of outstanding options was \$76.74 to \$152.98 and 1.0 year, respectively. The total number of options exercisable under both the 2009 Plan and the 1999 Plan at December 31, 2012 and 2011, was 68,150 shares with a weighted-average exercise price of \$124.39 and 83,590 with a weighted-average exercise price of \$113.04, respectively. During the nine months ended December 31, 2012, 28,395 options were forfeited, 37,205 options were exercised. There were 1,500 options exercised and new shares issued for \$98,550 in cash during the nine months ended December 31, 2011.

Stock Awards

Pursuant to the Capital Southwest Corporation 2010 Restricted Stock Award Plan, our Board of Directors has reserved for issuance 47,000 shares of restricted stock to certain key employees. A restricted stock award is an award of shares of our common stock (which have full voting and dividend rights but are restricted with regard to sale or transfer), the restrictions on which lapse ratably over a specified period of time (generally five years). Restricted stock awards are independent of stock option grants and are subject to forfeit if employment terminates prior to these restrictions lapsing. These shares vest over a five-year period from the grant date and are expensed over the five-year service period starting on the grant date. On January 16, 2012, the Board of Directors granted 9,650 shares of restricted stock to key employees of the Company. During the nine months ended December 31, 2012, 3,000 shares of restricted stock were forfeited. The following table summarizes the restricted stock available for issuance as of December 31, 2012:

Restricted stock available for issuance as of March 31, 2012	37,350
Less restricted stock forfeited during the year	(3,000)
Restricted stock available for issuance as of December 31, 2012	<u>40,350</u>

We expense the cost of the restricted stock awards, which is determined to equal the fair value of the restricted stock award at the date of the grant on a straight-line basis over the vesting period in which the restrictions on these stock awards lapse. For these purposes, the fair value of the restricted stock award is determined based on the closing price of our common stock on the date of grant. For the quarter ended December 31, 2012, we recognized total share based compensation expense of \$27,797 related to the restricted stock issued to our employees and officers. For the quarter ended December 31, 2011, no restricted stock had been issued.

As of December 31, 2012, the total remaining unrecognized compensation cost related to non-vested restricted stock awards was \$444,752, which will be amortized over the weighted-average service period of approximately 4.1 years.

The following table represents a summary of the activity for our restricted stock awards for the fiscal year ended December 31, 2012:

Restricted Stock Awards	Number of Shares	Weighted Average Fair Value Per Share	Weighted Average Remaining Vesting Term (in Years)
Unvested at March 31, 2012	9,650	\$ 83.60	4.8
Granted	–	–	–
Vested	–	–	–
Forfeited or expired	(3,000)	\$ 83.60	–
Unvested at December 31, 2012	6,650	\$ 83.60	4.1

Phantom Stock Plan

On January 16, 2012, our Board of Directors approved the issuance of 26,000 phantom stock options pursuant to the Capital Southwest Corporation Phantom Stock Option Plan to provide deferred compensation to certain key employees. Under the plan, awards vest on the fifth anniversary of the award date. Upon exercise of the phantom option, a cash payment in an amount for each phantom share equal to estimated fair market value minus the phantom option exercise price will be distributed to plan participants. The exercise price of each phantom share is \$146.95 (Net Asset Value at December 31, 2011), and the estimated liability for phantom stock awards is \$541,865 as of December 31, 2012.

The following table represents a summary of the activity for our phantom stock plan for the fiscal year ended December 31, 2012:

Phantom Stock Awards	Number of Shares	Exercise Price Per Share	Weighted Average Remaining Vesting Term (in Years)
Unvested at March 31, 2012	26,000	\$ 146.95	4.8
Granted	–	–	–
Vested	–	–	–
Forfeited or expired	(7,500)	\$ 146.95	–
Unvested at December 31, 2012	18,500	\$ 146.95	4.1

7. COMMITMENTS

From time to time, the Company may be liable for claims against its portfolio companies. We do not believe the effects of such claims would have a material impact on our results of operations and financial condition.

CSW has agreed, subject to certain conditions, to invest up to \$8,456,366 in nine portfolio companies as of December 31, 2012.

8. SUMMARY OF PER SHARE INFORMATION

The following presents a summary of per share data for the three and nine months ended December 31, 2012 and 2011.

Per Share Data	Three Months Ended		Nine Months Ended	
	December 31		December 31	
	2012	2011	2012	2011
Investment income	\$ 1.84	\$ 1.50	\$ 2.57	\$ 2.15
Operating expenses	(.74)	(.32)	(1.50)	(.96)
Income taxes	(.01)	(.01)	(.01)	(.01)
Net investment income	1.09	1.17	1.06	1.18
Distributions from undistributed net investment income	(.40)	(.40)	(.80)	(.80)
Net realized gain/(loss) net of tax	.17	(.64)	17.78	2.68
Net increase (decrease) in unrealized appreciation of investments	5.87	13.00	(1.56)	.04
Dividends from capital gains	—	—	(17.59)	—
Exercise of employee stock options	(.04)	—	(.76)	(.03)
Stock option expense	.02	.07	.09	.20
Other*	—	—	(.31)	—
Increase (decrease) in net asset value	6.71	13.20	(2.09)	3.27
Net asset value				
Beginning of period	158.65	133.75	167.45	143.68
End of period	\$ 165.36	\$ 146.95	\$ 165.36	\$ 146.95

* Reflects impact of the different share amounts as a result of issuance or forfeiture of restricted stock during the period.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our financial statements and the notes thereto included elsewhere in our Annual Report on Form 10-K for the fiscal year ended March 31, 2012 (the "Form 10-K").

The information contained herein may contain "forward-looking statements" based on our current expectations, assumptions and estimates about us and our industry. These forward-looking statements involve risks and uncertainties. Words such as "believe," "anticipate," "estimate," "expect," "intend," "plan," "will," "may," "might," "could," "continue" and other similar expressions identify forward-looking statements. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of several factors more fully described in "Risk Factors" and elsewhere in this Form 10-Q, and in the Form 10-K. The forward-looking statements made in this Form 10-Q related only to events as of the date on which the statements are made. You should read the following discussion in conjunction with the consolidated financial statements and related footnotes and other financial information included in the Form 10-K. We undertake no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

Resultsof Operations

The composite measure of our financial performance in the Consolidated Statements of Operations is captioned “Increase in net assets from operations” and consists of three elements. The first is “Net investment income,” which is the difference between income from interest, dividends and fees and its combined operating and interest expenses, net of applicable income taxes. The second element is “Net realized gain (loss) on investments,” which is the difference between the proceeds received from disposition of portfolio securities and their stated cost, net of applicable income tax expense based on the Company’s tax year. The third element is the “Net increase in unrealized appreciation of investments,” which is the net change in the market or fair value of the Company’s investment portfolio, compared with stated cost. It should be noted that the “Net realized gain (loss) on investments” and “Net increase in unrealized appreciation of investments” are directly related in that when an appreciated portfolio security is sold to realize a gain, a corresponding decrease in net unrealized appreciation occurs by transferring the gain associated with the transaction from being “unrealized” to being “realized.” Conversely, when a loss is realized on a depreciated portfolio security, an increase in net unrealized appreciation occurs.

Net Investment Income

For the nine months ended December 31, 2012, total investment income was \$9,767,472, a \$1,689,264, or 20.9%, increase from the \$8,078,208 total investment income for the nine months ended December 31, 2011. This comparable period increase was primarily attributable to interest income accrued on additional debt investments made in Cinatra, Trax, TitanLiner and iMemories in 2012 as well as an increase of \$1,391,074 in dividend receivables from Whitmore and Rectorseal.

The Company’s principal objective is to achieve capital appreciation. Therefore, a significant portion of the investment portfolio is structured to maximize the potential return from equity participation and provides minimal current yield in the form of interest or dividends. The Company also earns interest income from the short-term investment of cash funds, and the annual amount of such income varies based upon the average level of funds invested during the year and fluctuations in short-term interest rates. During the nine months ended December 31, 2012 and 2011, the Company also had interest income from temporary cash investments of \$50,400 and \$35,421, respectively.

The Company also receives management fees primarily from its controlled affiliates, which aggregated \$456,850 and \$420,100 for the nine months ended December 31, 2012 and 2011, respectively.

During the nine months ended December 31, 2012 and 2011, the Company recorded dividend income from the following sources:

	Nine Months Ended December 31,	
	2012	2011
Alamo Group, Inc.	\$ 509,814	\$ 509,694
CapitalSouth Partners Fund III	198,647	79,459
Encore Wire Corporation	134,235	245,205
The RectorSeal Corporation	5,315,372	4,202,512
TCI Holdings, Inc.	60,953	60,953
The Whitmore Manufacturing Company	1,328,842	1,050,628
	<u>\$ 7,547,863</u>	<u>\$ 6,148,451</u>

Due to the nature of its business, the majority of the Company's operating expenses are related to employee and director compensation, office expenses, legal, professional and accounting fees and the net pension benefit. Total operating expenses, increased by \$2,148,141 or 60% during the nine months ended December 31, 2012 as compared to the nine months ended December 31, 2011. Of the \$2,148,141 increase, \$1,657,303 is related to the establishment of bonus and phantom option accruals during the quarter ended December 31, 2012. The remainder of the increase is due primarily to compensation adjustments that went into effect in July 2012 as well as staff growth during the nine months ended December 31, 2012.

Net Realized Gain (Loss) on Investments

During the nine months ended December 31, 2012, we sold 2,774,250 shares of common stock in Encore Wire Corporation held by our subsidiary, CSVC, to Encore Wire generating a capital gain of \$66,037,485. We also sold 50,000 shares of common stock of Hologic, Inc. generating a capital gain of \$850,548. In addition, we sold all investment ownership in Extreme International, Inc. generating net cash proceeds of \$11,890,630 and a realized gain of \$7,600,125. We also received cash proceeds in the amount of \$2,823 from Palm Harbor Home Liquidating Trust. These gains were offset by a \$4,926,289 realized loss associated with sales of all investment ownership in VIA holdings., \$760,742 realized loss related to liquidation of Sterling Group Partners, L.P., \$150,594 realized loss related to liquidation of StarTech Seed Fund I, L.P. , and \$7,000 capital loss adjustment related to a final true-up of the Lifemark Group, Inc. divesture from June 2010. The net realized gain for the nine months ended December 31, 2012 was \$68,646,356. We declared and paid a cash dividend in the amount of \$66,825,782 or \$17.59 per share of common stock in June 2012. In total, we recognized net realized gains of \$1,820,574 for the nine months ended December 31, 2012.

During the nine months ended December 31, 2011, we sold all of our shares of preferred stock (Series A, Series B and Series C) in Phi Health, Inc, generating net cash proceeds of \$38,959 and a realized loss of \$5,910,655; we sold all of our shares of Series A convertible preferred stock, along with warrants to purchase additional shares of common stock of All Components, Inc. in a management buy-out generating cash proceeds of \$18,000,000 and a realized gain of \$17,850,000; we received \$500,000 in cash proceeds from Essex Capital Corporation as settlement for an unsecured promissory note generating a gain of \$500,000, which was the by-product of an option exercise agreement; we sold all of our shares of common stock of Texas Capital BancShares, Inc., generating net cash proceeds of \$13,416,341 and a realized gain of \$9,866,335; we sold our warrants in PalletOne, Inc. generating cash proceeds of \$459 and a realized loss of \$45,287; and we recognized a loss of \$10,820,624 when Palm Harbor Homes, Inc. was officially declared bankrupt. In total, we recognized net realized gains of \$11,328,436 for the nine months ended December 31, 2011.

Management does not attempt to maintain a consistent level of realized gains from year to year, but instead attempts to maximize total investment portfolio appreciation. This strategy often dictates the long-term holding of portfolio securities in pursuit of increased values and increased unrealized appreciation, but may at opportune times dictate realizing gains or losses through the disposition of certain portfolio investments.

Net Increase/(Decrease) in Unrealized Appreciation of Investments

For the nine months ended December 31, 2012, we recognized a \$5,903,931 decrease in net change in unrealized appreciation of investments. The largest decreases in unrealized appreciation were attributable to Encore Wire Corporation, which decreased \$81,089,460 primarily due to our recent sale of CSVC's interest in Encore Wire Corporation; Hologic, Inc. decreased \$1,957,514 attributable primarily to recent sales of 50,000 shares; Media Recovery, Inc. decreased \$5,400,000; and Cinatra Clean Technologies, Inc. decreased \$4,107,390 due to slowdowns in their respective business segments. Offsetting these decreases were Alamo Group, Inc. which increased \$7,258,374 due to an increase in stock price; The Rectorseal Corporation, which increased \$63,300,000; KBI Biopharma, which increased \$2,200,000; Trax Holdings, Inc., which increased \$8,800,000; The Whitmore Manufacturing Company, which increased \$4,200,000; and Instawares Holding Company, LLC, which increased \$829,000. All of these increases were attributable to increases in the entities' respective earnings and recent transaction prices.

Set forth in the following table are the significant increases and decreases in unrealized appreciation by portfolio company:

	Three Months Ended December 31,		Nine Months Ended December 31,	
	2012	2011	2012	2011
Alamo Group, Inc.	\$ (3,277,112)	\$ 14,161,500	\$ 7,258,374	\$ (664,075)
Cinatra Clean Technologies, Inc.	(1,720,997)	(3,598,835)	(4,107,390)	(6,192,538)
Encore Wire Corporation	1,365,000	19,412,063	(81,089,460)*	13,281,938
Hologic, Inc.	(122,334)	1,449,158	(1,957,514)	(2,967,926)
Instawares Holding Company, LLC	94,000	-	829,000	-
KBI Biopharma, Inc.	-	300,000	2,200,000	(2,300,000)
Media Recovery, Inc.	1,200,000	2,200,000	(5,400,000)	500,000
The RectorSeal Corporation	21,000,000	12,400,000	63,300,000	9,000,000
Trax Holdings, Inc.	6,400,000	-	8,800,000	41,970
Whitmore Manufacturing Company	(5,700,000)	1,400,000	4,200,000	5,400,000

* Gain of \$66,037,485 was realized on the sale of 2,774,250 shares of common stock during the nine months ended December 31, 2012.

A description of the investments listed above and other material components of the investment portfolio are included elsewhere in this report under the caption "Consolidated Schedule of Investments – December 31, 2012 and March 31, 2012."

Portfolio Investments

During the nine months ended December 31, 2012, we invested \$5,950,000 into a new investment, TitanLiner, Inc., and \$3,090,849 in existing portfolio companies.

We have agreed, subject to certain conditions, to invest up to \$8,456,366 in nine portfolio companies as of December 31, 2012.

Financial Liquidity and Capital Resources

At December 31, 2012, the Company had cash and cash equivalents of approximately \$67.6 million. Pursuant to the SBA regulations, cash and cash equivalents of \$14.7 million held by CSVC may not be transferred or advanced to CSW without the consent of the SBA.

Management believes that the Company's cash and cash equivalents and cash available from other sources described above are adequate to meet its expected requirements. Consistent with the long-term strategy of the Company, the disposition of investments from time to time may also be an important source of funds for future investment activities.

Application of Critical Accounting Policies and Accounting Estimates

There have been no changes during the quarter ended December 31, 2012 to the critical accounting policies or the areas that involve the use of significant judgments or estimates we described in the Form 10-K.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to financial market risks, including changes in marketable equity security prices. We do not use derivative financial instruments to mitigate any of these risks.

Our investment performance is a function of our portfolio companies' profitability, which may be affected by economic cycles, competitive forces, foreign currency fluctuations and production costs including labor rates, raw material prices and certain basic commodity prices. Most of the companies in our investment portfolio do not hedge their exposure to raw material and commodity price fluctuations. However, the portfolio company with the greatest exposure to foreign currency fluctuations generally hedges its exposure. All of these factors may have an adverse effect on the value of our investments and on our net asset value.

Our investment in portfolio securities includes fixed-rate debt securities which totaled \$7,309,000 at December 31, 2012, equivalent to 1.3% of the value of our total investments. Generally, these debt securities are below investment grade and have relatively high fixed rates of interest; therefore, minor changes in market yields of publicly traded debt securities have little or no effect on the values of debt securities in our portfolio and no effect on interest income. Our investments in debt securities are generally held to maturity and their fair values are determined on the basis of the terms of the debt security and the financial condition of the issuer.

A portion of our investment portfolio consists of debt and equity securities of private companies. We anticipate little or no effect on the values of these investments from modest changes in public market equity valuations. Should significant changes in market valuations of comparable publicly traded companies occur, there may be a corresponding effect on valuations of private companies, which would affect the value and the amount and timing of proceeds eventually realized from these investments. A portion of our investment portfolio also consists of unrestricted, freely marketable common stock of publicly traded companies. These freely marketable investments, which are valued at the public market price, are directly exposed to equity price risks because a change in an issuer's public market equity price would result in an identical change in the value of our investment in such security.

Item 4. Controls and Procedures

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of our management, including the Chairman of the Board and President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based upon this evaluation, our Chairman of the Board and President and Chief Financial Officer have concluded that our current disclosure controls and procedures are effective in timely alerting them of material information relating to us that is required to be disclosed in the reports we file or submit under Securities Exchange Act of 1934.

During the fiscal quarter ended December 31, 2012, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

We may, from time to time, be involved in litigation arising out of our operations in the normal course of business or otherwise. Furthermore, third parties may try to seek to impose liability on us in connection with the activities of our portfolio companies. We have no current pending legal proceedings to which we are party or to which any of our assets is subject.

Item 1A. Risk Factors

There have been no material changes to our risk factors disclosed in Item 1A. “Risk Factors” in the Form 10-K.

Item 6. Exhibits

<u>Exhibit No.</u>	<u>Description</u>
31.1	Certification of Chairman of the Board and President required by Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), filed herewith.
31.2	Certification of Chief Financial Officer required by Rule 13a-14(a) of the Exchange Act, filed herewith.
32.1	Certification of Chairman of the Board and President required by Rule 13a-14(b) of the Exchange Act and Section 1350 of Chapter 63 of Title 18 of the United States Code, furnished herewith.
32.2	Certification of Chief Financial Officer required by Rule 13a-14(b) of the Exchange Act and Section 1350 of Chapter 63 of Title 18 of the United States Code, furnished herewith.

SIGNATURES

Pursuant to the requirements the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
