PART I

Item 1. Business

Capital Southwest Corporation (the "Company") was organized as a Texas corporation on April 19, 1961. Until September 1969, the Company operated as a licensee under the Small Business Investment Act of 1958. At that time, the Company transferred to its wholly-owned subsidiary, Capital Southwest Venture Corporation ("CSVC"), certain of its assets and its license as a small business investment company ("SBIC"). CSVC is a closed-end, non-diversified investment company of the management type. Prior to March 30, 1988, the Company was registered as a closed-end, non-diversified investment company under the Investment Company Act of 1940 (the "1940 Act"). On that date, the Company elected to become a business development company subject to the provisions of Sections 55 through 65 of the 1940 Act, as amended by the Small Business Incentive Act of 1980.

The Company is a venture capital investment company whose objective is to achieve capital appreciation through long-term investments in businesses believed to have favorable growth potential. The Company participates in start-up and early-stage financings, expansion financings and leveraged buyout financings in a broad range of industry segments. The Company's portfolio is a composite of investments in several companies in which the Company has major interests as well as a number of developing companies and marketable securities of established publicly-owned companies. The Company makes available significant managerial assistance to the companies in which it invests and believes that providing material assistance to such investee companies is critical to its business development activities.

The twelve largest investments of the Company had a combined cost of \$41,943,522 and a value of \$263,978,402, representing 90.0% of the value of the Company's consolidated investment portfolio at March 31, 1997. For a narrative description of the twelve largest investments, see "Twelve Largest Investments - March 31, 1997" on pages 4 through 6 of the Company's Annual Report to Shareholders for the Year Ended March 31, 1997 (the "1997 Annual Report") which is herein incorporated by reference. Certain of the information presented on the twelve largest investments has been obtained from the respective companies and, in certain cases, from public filings of such companies. The financial information presented on each of the respective companies is from such companies' financial statements, which in some instances are unaudited.

The Company competes for attractive investment opportunities with venture capital partnerships and corporations, venture capital affiliates of industrial and financial companies, other SBICs and wealthy individuals.

The number of persons employed by the Company at March 31, 1997 was eight.

Item 2. Properties

The Company maintains its offices at 12900 Preston Road, Suite 700, Dallas, Texas, 75230, where it rents approximately 3,200 square feet of office space pursuant to a lease agreement expiring in February 1998. The Company believes that its offices are adequate to meet its current and expected future needs.

Item 3. Legal Proceedings

The Company has no material pending legal proceedings to which it is a party or to which any of its property is subject.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders during the quarter ended March 31, 1997.

#### Notes to Portfolio of Investments

(a) The percentages in the "Equity" column express the potential equity interests held by Capital Southwest Corporation and Capital Southwest Venture Corporation (together, the "Company") in each issuer. Each percentage represents the amount of the issuer's common stock the Company owns or can acquire as a percentage of the issuer's total outstanding common shares, plus shares reserved for all outstanding warrants, convertible securities and employee stock options. The symbol "<1%" indicates that the Company holds a potential equity interest of less than one percent.

(b) Unrestricted securities (indicated by ++) are freely marketable securities having readily available market quotations. All other securities are restricted securities which are subject to one or more restrictions on resale and are not freely marketable. At March 31, 1997, restricted securities represented approximately 88% of the value of the consolidated investment portfolio.

(c) Under the valuation policy of the Company, unrestricted securities are valued at the closing sale price for listed securities and at the closing bid price for over-the-counter securities on the valuation date. Restricted securities, including securities of publicly-owned companies which are subject to restrictions on resale, are valued at fair value as determined by the Board of Directors. Fair value is considered to be the amount which the Company may reasonably expect to receive for portfolio securities if such securities were sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities.

Among the factors considered by the Board of Directors in determining the fair value of restricted securities are the financial condition and operating results of the issuer, the long-term potential of the business of the issuer, the market for and recent sales prices of the issuer's securities, the

Notes to Portfolio of Investments (continued)

values of similar securities issued by companies in similar businesses, the proportion of the issuer's securities owned by the Company, the nature and duration of resale restrictions and the nature of any rights enabling the Company to require the issuer to register restricted securities under applicable securities laws. In determining the fair value of restricted securities, the Board of Directors considers the inherent value of such securities without regard to the restrictive feature and adjusts for any diminution in value resulting from restrictions on resale.

(d) Agreements between certain issuers and the Company provide that the issuers will bear substantially all costs in connection with the disposition of common stocks, including those costs involved in registration under the Securities Act of 1933 but excluding underwriting discounts and commissions. These agreements, which cover common stocks owned at March 31, 1997 and common stocks which may be acquired thereafter through exercise of warrants and conversion of debentures and preferred stocks, apply to restricted securities of all issuers in the investment portfolio of the Company except securities of the following issuers, which are not obligated to bear registration costs: Humac Company, Skylawn Corporation and The Whitmore Manufacturing Company.

(e) The descriptions of the companies and ownership percentages shown in the portfolio of investments were obtained from published reports and other sources believed to be reliable, are supplemental and are not covered by the report of independent auditors. Acquisition dates indicated are the dates specific securities were acquired. Certain securities were received in exchange for or upon conversion or exercise of other securities previously acquired.

1. Summary of Significant Accounting Policies

Capital Southwest Corporation ("CSC") is a business development company subject to regulation under the Investment Company Act of 1940. Capital Southwest Venture Corporation ("CSVC"), a wholly-owned subsidiary of CSC, is a Federal licensee under the Small Business Investment Act of 1958. The following is a summary of significant accounting policies followed in the preparation of the consolidated financial statements of CSC and CSVC (together, the "Company"):

**Principles of Consolidation.** The consolidated financial statements have been prepared on the value method of accounting in accordance with generally accepted accounting principles for investment companies. All significant intercompany accounts and transactions have been eliminated in consolidation.

**Cash and Cash Equivalents.** All temporary cash investments having a maturity of three months or less when purchased are considered to be cash equivalents.

**Portfolio Security Valuations.** Investments are stated at market or fair value determined by the Board of Directors as described in the Notes to Portfolio of Investments and Note 2 below. The average cost method is used in determining cost of investments sold.

2. Valuation of Investments

The consolidated financial statements as of March 31, 1997 and 1996 include securities valued at \$257,914,916 (88% of the value of the consolidated investment portfolio) and \$223,234,086 (87% of the value of the consolidated investment portfolio), respectively, whose values have been determined by the Board of Directors in the absence of readily ascertainable market values. Because of the inherent uncertainty of valuation, these values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

3. Income taxes

For the tax years ended December 31, 1996, 1995 and 1994, CSC and CSVC qualified to be taxed as regulated investment companies ("RICs") under applicable provisions of the Internal Revenue Code. As RICs, CSC and CSVC must distribute at least 90% of their taxable net investment income (investment company taxable income) and may either distribute or retain their taxable net realized gain on investments (capital gains). Both CSC and CSVC intend to meet the applicable qualifications to be taxed as RICs in future years; however, either company's ability to meet certain portfolio diversification requirements of RICs in future years may not be controllable by such company.

No provision was made for Federal income taxes on the investment company taxable income of CSC and CSVC for the 1997, 1996 and 1995 fiscal years. Such income was distributed to shareholders in the form of cash dividends for which CSC and CSVC receive a tax deduction. With respect to net investment income, the income tax expense for each of the three years ended March 31, 1997 includes a deferred tax provision related to the net pension benefit.

With respect to the net increase in unrealized appreciation of investments before distributions during fiscal 1996, the increase in deferred income taxes on appreciation of investments at the Federal statutory rate of 35% differs from the amounts reported in the financial statements due to the distribution of appreciated securities with no associated tax liability.

CSC and CSVC may not qualify or elect to be taxed as RICs in future years. Therefore, consolidated deferred Federal income taxes of \$81,313,000 and \$69,121,000 have been provided on net unrealized appreciation of investments of \$233,383,111 and \$198,386,361 at March 31, 1997 and 1996, respectively. Such appreciation is not included in taxable income until realized. Deferred income taxes on net unrealized appreciation of investments have been provided at the then currently effective maximum Federal corporate tax rate on capital gains of 35% at March 31, 1997 and 1996.

4. Notes Payable to Bank

The Company has an unsecured \$15,000,000 revolving line of credit, all of which was available at March 31, 1997. The revolving line of credit bears interest at the bank's base rate less .50%, and matures on July 31, 1997. The note payable to bank at March 31, 1996 was an unsecured note with interest payable at 6.24%. The note was paid in full on April 1, 1996.

5. Subordinated Debentures

The subordinated debentures, payable to others and guaranteed by the Small Business Administration ("SBA"), are as follows:

	March 31	
	-----	
	1997	1996
	----	----
8.75%, due in 1996.....	\$ -	\$ 6,000,000

	-----	-----
Total	\$ 5,000,000	\$ 11,000,000
	=====	=====

6. Employee Stock Option Plan

Under the 1984 Incentive Stock Option Plan, options to purchase 90,000 shares at prices ranging from \$23.25 to \$39.1875 per share (the adjusted market prices at the time of grant) were outstanding at March 31, 1997. Options on 53,825 shares were exercisable at March 31, 1997. During the year ended March 31, 1997, no options were exercised. Outstanding options expire 2000 through 2003. The 1984 Incentive Stock Option Plan expired in 1994 and no options have been authorized or granted since that date. At March 31, 1997 and 1996, the dilution of net assets per share arising from options outstanding was not material.

7. Employee Stock Ownership Plan

The Company and one of its wholly-owned subsidiaries sponsor a qualified employee stock ownership plan ("ESOP") in which certain employees participate. Contributions to the plan, which are invested in Company stock, are made at the discretion of the Company's Board of Directors. A participant's interest in contributions to the ESOP fully vests after five years of active service. During the three years ended March 31, the Company made contributions to the ESOP, which were charged against net investment income, of \$54,104 in 1997, \$76,341 in 1996 and \$19,338 in 1995.

8. Retirement Plan

The Company sponsors a defined benefit pension plan which covers its employees and employees of certain of its wholly-owned subsidiaries. The following information about the plan represents amounts and information related to the Company's participation in the plan and is presented as though the Company sponsored a single-employer plan. Benefits are based on years of service and an average of the highest five consecutive years of compensation during the last ten years of employment. The funding policy of the plan is to contribute annual amounts that are currently deductible for tax reporting purposes. No contribution was made to the plan during the three years ended March 31, 1997.

Components of net pension benefit related to the qualified plan include the following:

	Years Ended March 31

\*Primarily equities and bonds including approximately 29,200 shares of common stock of the Company.

The weighted-average discount rate and rate of increase in future compensation levels used in determining the actuarial present value of the projected benefit obligation were 8.0% and 5.0%, respectively, at March 31, 1997, 7.75% and 5.25%, respectively, at March 31, 1996 and 8.0% and 5.5%, respectively, at March 31, 1995. The expected long-term rate of return used to project estimated earnings on plan assets was 8.5% for the years ended March 31, 1997, 1996 and 1995. The calculations also assume retirement at age 65, the normal retirement age.

The Company also sponsors an unfunded Retirement Restoration Plan, which is a nonqualified plan that provides for the payment, upon retirement, of the difference between the maximum annual payment permissible under the qualified retirement plan pursuant to Federal limitations and the amount which would otherwise have been payable under the qualified plan.

The following table sets forth the status of the Retirement Restoration Plan and the amounts recognized in the consolidated statements of financial condition:

Independent Auditors' Report

The Board of Directors and Shareholders of  
Capital Southwest Corporation:

We have audited the accompanying consolidated statements of financial condition of Capital Southwest Corporation and subsidiary as of March 31, 1997 and 1996, the portfolio of investments as of March 31, 1997, the related consolidated statements of operations, changes in net assets and cash flows for each of the years in the three-year period ended March 31, 1997 and the selected per share data and ratios for each of the years in the five-year period ended March 31, 1997. These financial statements and per share data and ratios are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and per share data and ratios based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and per share data and ratios are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included verification of securities owned as of March 31, 1997 and 1996, by examination of such securities held by the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion the consolidated financial statements and selected per share data and ratios referred to above present fairly, in all material respects, the financial position of Capital Southwest Corporation and subsidiary as of March 31, 1997 and 1996, and the results of their operations, the changes in their net assets and their cash flows for each of the years in the three-year period ended March 31, 1997 and the selected per share data and ratios for each of the years in the five-year period ended March 31, 1997, in conformity with generally accepted accounting principles.

Results of Operations

The composite measure of the Company's financial performance in the Consolidated Statements of Operations is captioned "Increase in net assets from operations before distributions" and consists of three elements. The first is "Net investment income", which is the difference between the Company's income from interest, dividends and fees and its combined operating and interest expenses, net of applicable income taxes. The second element is "Net realized gain on investments", which is the difference between the proceeds received from disposition of portfolio securities and their stated cost, net of applicable income tax expense. The third element is the "Net increase in unrealized appreciation of investments before distributions", which is the net change in the market or fair value of the Company's investment portfolio, compared with stated cost, net of an increase or decrease in deferred income taxes which would become payable if the unrealized appreciation was realized through the sale or other disposition of the investment portfolio. It should be noted that the "Net realized gain on investments" and "Net increase in unrealized appreciation of investments before distributions" are directly related in that when an appreciated portfolio security is sold to realize a gain, a corresponding decrease in net unrealized appreciation occurs by transferring the gain associated with the transaction from being "unrealized" to being "realized." Conversely, when a loss is realized on a depreciated portfolio security, an increase in net unrealized appreciation occurs.

Net Investment Income

The Company's principal objective is to achieve capital appreciation. Therefore, a significant portion of the investment portfolio is structured to maximize the potential return from equity participation and provides minimal current yield in the form of interest or dividends. The Company also earns interest income from the short-term investment of cash funds, and the annual amount of such income varies based upon the average level of funds invested during the year and fluctuations in short-term interest rates. During the three years ended March 31, the Company had interest income from temporary cash investments of \$637,000 in 1997, \$687,000 in 1996 and \$667,000 in 1995. The Company also receives management fees from its wholly-owned subsidiaries which aggregated \$506,400 in the year ended March 31, 1997, \$523,200 in the year ended March 31, 1996 and \$480,000 in the year ended March 31, 1995. During the three years ended March 31, 1997, the Company recorded dividend income from the following sources:

	Years Ended March 31		
	1997	1996	1995
Alamo Group Inc. ....	\$1,064,000	\$1,064,000	\$ 984,200
Cherokee Communications, Inc. ...	108,789	144,000	180,000
Humac Company.....	-	208,200	-
The RectorSeal Corporation.....	940,895	1,529,019	1,285,112
Skylawn Corporation.....	450,000	300,000	-
Texas Shredder, Inc. ....	37,500	178,125	-

	-----	-----	-----
	\$2,774,321	\$3,597,004	\$2,629,384
	=====	=====	=====

Total operating expenses, excluding interest expense, decreased by \$149,925 or 9.7% and increased by \$333,526 or 27.5% during the years ended March 31, 1997 and 1996, respectively. Due to the nature of its business, the majority of the Company's operating expenses are related to employee and director compensation, office expenses, legal and accounting fees and the net pension benefit. Interest expense, the majority of which is related to the SBA-guaranteed subordinated debentures, decreased by \$1,065,336 and increased by \$305,737 during the years ended March 31, 1997 and 1996, respectively.

Net Realized Gain on Investments

Net realized gain on investments was \$6,805,786 (after income tax expense of \$3,752,425) during the year ended March 31, 1997, compared with a gain of \$11,174,025 (after income tax expense of \$5,357,215) during 1996 and a gain of \$142,403 (after income tax expense of \$76,679) during 1995. Management does not attempt to maintain a comparable level of realized gains from year to year, but instead attempts to maximize total investment portfolio appreciation. This

strategy often dictates the long-term holding of portfolio securities in pursuit of increased values and increased unrealized appreciation, but may at opportune times dictate realizing gains through the disposition of certain portfolio investments.

#### Net Increase in Unrealized Appreciation of Investments

For the three years ended March 31, the Company recorded an increase in unrealized appreciation of investments before income taxes and distributions of \$34,996,750, \$54,619,668 and \$20,898,731 in 1997, 1996 and 1995, respectively. As explained in the first paragraph of this discussion and analysis, the realization of gains or losses results in a corresponding decrease or increase in unrealized appreciation of investments. Set forth in the following table are the significant increases and decreases in unrealized appreciation (before the related change in deferred income taxes and distributions and excluding the effect of gains or losses realized during the year) by portfolio company for securities held at the end of each year.

A description of the investments listed above and other material components of the investment portfolio is included elsewhere in this report under the caption "Portfolio of Investments - March 31, 1997."

#### Deferred Taxes on Unrealized Appreciation of Investments

The Company provides for deferred Federal income taxes on net unrealized appreciation of investments. Such taxes would become payable at such time as unrealized appreciation is realized through the sale or other disposition of those components of the investment portfolio which would result in taxable transactions. At March 31, 1997, consolidated deferred Federal income taxes of \$81,313,000 were provided on net unrealized appreciation of investments of \$233,383,111 compared with deferred taxes of \$69,121,000 on net unrealized appreciation of \$198,386,361 at March 31, 1996. Deferred income taxes at March 31, 1997 and 1996 were provided at the then currently effective maximum Federal corporate tax rate on capital gains of 35%.

#### Portfolio Investments

During the year ended March 31, 1997, the Company invested \$6,023,684 in various portfolio securities listed elsewhere in this report under the caption "Portfolio Changes During the Year," which also lists dispositions of portfolio securities. During the 1996 and 1995 fiscal years, the Company invested a total of \$19,406,816 and \$9,556,876, respectively.

#### Financial Liquidity and Capital Resources

At March 31, 1997, the Company had cash and cash equivalents of \$14.0 million. Pursuant to Small Business Administration ("SBA") regulations, cash and cash equivalents of \$11.5 million held by CSVC may not be transferred or advanced to CSC without the consent of the SBA. The Company also has an unsecured \$15,000,000 revolving line of credit, all of which was available at March 31, 1997. Under current SBA regulations and subject to SBA's approval of its credit application, CSVC would be entitled to borrow up to \$43.2 million in addition to the \$5 million presently outstanding. Approximately \$35.4 million of the Company's investment portfolio is represented by unrestricted publicly-traded securities, which have an ascertainable market value and represent a primary source of liquidity.

Funds to be used by the Company for operating or investment purposes may be transferred in the form of dividends, management fees or loans from Skylawn Corporation, The RectorSeal Corporation and The Whitmore Manufacturing Company, wholly-owned subsidiaries of the Company, to the extent of their available cash reserves and borrowing capacities.

Management believes that the Company's cash and cash equivalents are adequate to meet its expected requirements. Consistent with the long-term strategy of the Company, the disposition of investments from time to time may also be an important source of funds for future investment activities.

#### Impact of Inflation

The Company does not believe that its business is materially affected by inflation, other than the impact which inflation may have on the securities markets, the valuations of business enterprises and the relationship of such valuations to underlying earnings, all of which will influence the value of the Company's investments.

#### Risks

Pursuant to Section 64(b)(1) of the Investment Company Act of 1940, a business development company is required to describe the risk factors involved in an investment in the securities of such company due to the nature of the company's investment portfolio. Accordingly the Company states that:

The Company's objective is to achieve capital appreciation through investments in businesses believed to have favorable growth potential. Such businesses are often undercapitalized small companies which lack management depth and have not yet attained profitability. The Company's venture investments often include securities which do not yield interest or dividends and are subject to legal or contractual restrictions on resale, which restrictions adversely affect the liquidity and marketability of such securities.

Because of the speculative nature of the Company's investments and the lack of any market for the securities initially purchased by the Company, there is a significantly greater risk of loss than is the case with traditional investment securities. The high-risk, long-term nature of the Company's venture investment activities may prevent shareholders of the Company from achieving price appreciation and dividend distributions.
