Notes to Consolidated Schedule of Investments

a) Equity

The percentages in the “Equity” column express equity interests held collectively by Capital Southwest Corporation and Capital Southwest Venture Corporation (together, the “Company”) in each issuer. Each percentage represents the amount of the issuer’s common stock owned by the Company or which the Company has the right to acquire as a percentage of the issuer’s total outstanding common stock, plus stock reserved for all warrants, convertible securities and employee stock options.

(b) Investments

Unrestricted securities (indicated by ‡) are freely marketable securities having readily available market quotations. All other securities are restricted securities, which are subject to one or more restrictions on resale and are not freely marketable. At June 30, 2013, restricted securities represented approximately 71.0% of the value of the consolidated investment portfolio and unrestricted securities represented 29.0% of the value of the consolidated investment portfolio. At March 31, 2013, restricted securities represented approximately 70.8% of the value of the consolidated investment portfolio and unrestricted securities represented 29.2% of the value of the consolidated investment portfolio.

Our investments are carried at fair value in accordance with the Investment Company Act of 1940 (the “1940 Act”) and FASB Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures. In accordance with the 1940 Act, unrestricted minority-owned publicly traded securities, for which the market quotations are readily available, are valued at the closing sale price for the NYSE listed securities and the lower of the closing bid price or the last sale price for NASDAQ securities on the valuation date; privately held securities are valued as determined in good faith by our Board of Directors.

ASC 820 defines fair value in terms of the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the “exit price”) and excludes transaction costs. Under ASC 820, the fair value measurement also assumes that the transaction to sell an asset occurs in the principal market for the asset or, in the absence of a principal market, the most advantageous market for the asset. The principal market is the market in which the reporting entity would sell or transfer the asset with the greatest volume and level of activity for the asset. In determining the principal market for an asset or liability under ASC 820, it is assumed that the reporting entity has access to the market as of the measurement date.

(c) Value

Debt Securities are generally valued on the basis of the price the security would command in order to provide a yield-to-maturity equivalent to the present yield of comparable debt instruments of similar quality. Issuers whose debt securities are judged to be of poor quality and doubtful collectability may instead be valued by assigning percentage discounts commensurate with the quality of such debt securities. Debt securities may also be valued based on the resulting value from the sale of the business at the estimated fair market value.

Partnership Interests, Preferred Equity and Common Equity, including unrestricted marketable securities, are valued at the closing sale price for the NYSE listed securities and the lower of the closing bid price or the last sale price for NASDAQ securities on the valuation date. For those without a principal market, our Board of Directors considers the financial condition and operating results of the issuer; the long-term potential of the business of the issuer; the market for and recent sales prices of the issuer's securities; the values of similar securities issued by companies in similar businesses; and the proportion of the issuer's securities owned by the Company. Investments in certain entities that calculate net asset value per share (or its equivalent) and for which fair market value is not readily determinable are valued using the net asset value per share (or its equivalent, such as member units or ownership interest in partners' capital to which a proportionate share of net assets is attributed) of the investment.

Equity warrants are valued on the basis of the Black-Scholes model which defines the market value of a warrant in relation to the market price of the underlying common stock, share price volatility, and time to maturity.

(d) Agreements between Certain Issuers and the Company

Agreements between certain issuers and the Company provide that the issuer will bear substantially all costs in connection with the Company disposing of such common stock, including those costs involved in registration under the Securities Act of 1933, but excluding underwriting discounts and commissions. These agreements cover common stock owned at June 30, 2013 and common stock which may be acquired thereafter through the exercise of warrants and conversion of debentures and preferred stock. They apply to restricted securities of all issuers in the investment portfolio of the Company, except securities of the following issuers which are not obligated to bear registration costs: Humac Company and The Whitmore Manufacturing Company.

(e) Descriptions and Ownership Percentages

The descriptions of the companies and ownership percentages shown in the Consolidated Schedule of Investments were obtained from published reports and other sources believed to be reliable. Acquisition dates indicated are the dates specific securities were acquired, which may differ from the original investment dates. Certain securities were received in exchange for or upon conversion or exercise of other securities previously acquired.

Notes to Consolidated Financial Statements

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization

Capital Southwest Corporation (“CSW”) was organized as a Texas corporation on April 19, 1961. Until September 1969, CSW operated as a licensee under the Small Business Investment Act of 1958. At that time, we transferred to our wholly-owned subsidiary, Capital Southwest Venture Corporation (“CSVC”), certain assets and our license as a small business investment company (“SBIC”). CSVC is a closed-end, non-diversified investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). Prior to March 30, 1988, CSW was registered as a closed-end, non-diversified investment company under the 1940 Act. On that date, CSW elected to become a Business Development Company (“BDC”) subject to the provisions of the 1940 Act, as amended by the Small Business Incentive Act of 1980. Because CSW wholly owns CSVC, the portfolios of both CSW and CSVC are referred to collectively as “our,” “we” and “us.” Capital Southwest Management Company (“CSMC”), a wholly-owned subsidiary of CSW, is the management company for CSW and CSVC. CSMC generally incurs all normal operating and administrative expenses, including, but not limited to, salaries and related benefits, rent, equipment and other administrative costs required for its day-to-day operations.

Our portfolio is a composite of companies, consisting of controlled affiliates, fund holdings, publicly-traded holdings, and other non-control holdings. We make available significant managerial assistance to the companies in which we invest and believe that providing managerial assistance to such investee companies is critical to their business development activities. CSMC receives a monthly fixed fee for management services provided to certain of its control portfolio companies.

Basis of Presentation

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). Under rules and regulations applicable to investment companies, we are precluded from consolidating any entity other than another investment company. An exception to this general principle occurs if the investment company has an investment in an operating company that provides services to the investment company. Accordingly, consolidated financial statements include CSMC, our management company.

Portfolio Investment Classification

We classify our investments in accordance with the requirements of the 1940 Act. Under the 1940 Act, “Control Investments” are defined as investments in which we own more than 25% of the voting securities or have rights to maintain greater than 50% of the board representation; “Affiliated Investments” are defined as investments in which we own between 5% and 25% of the voting securities; and “Non-Control/Non-Affiliated Investments” are defined as investments that are neither “Control Investments” nor “Affiliated Investments.”

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of the consolidated financial statements of CSW, CSVC and CSMC.

Fair Value Measurements. We adopted FASB ASC Topic 820 on April 1, 2008. ASC Topic 820 (1) creates a single definition of fair value, (2) establishes a framework for measuring fair value, and (3) expands disclosure requirements about items measured at fair value. The Statement applies to both items recognized and reported at fair value in the financial statements and items disclosed at fair value in the notes to the financial statements. The Statement does not change existing accounting rules governing what can or what must be recognized and reported at fair value in our financial statements, or disclosed at fair value in our notes to financial statements. Additionally, ASC Topic 820 does not eliminate practicability exceptions that exist in accounting pronouncements amended by this Statement when measuring fair value.

Fair value is generally determined based on quoted market prices in the active markets for identical assets or liabilities. If quoted market prices are not available, we use valuation techniques that place greater reliance on observable inputs and less reliance on unobservable inputs. Due to the inherent uncertainty in the valuation process, our estimate of fair value may differ materially from the values that would have been used had a ready market for the securities existed. In addition, changes in the market environment, portfolio company performance and other events may occur over the lives of the investments that may cause the gains or losses ultimately realized on these investments to be materially different than the valuations currently assigned. We determine the fair value of each individual investment and record changes in fair value as unrealized appreciation or depreciation.

Pursuant to our internal valuation process, each portfolio company is valued once a quarter. In addition to our internal valuation process, our Board of Directors retains a nationally recognized firm to provide limited scope third party valuation services on certain portfolio investments. Our Board of Directors retained Duff & Phelps to provide limited scope third party valuation services on three investments comprising 57.7% of our net asset value at March 31, 2013.

We believe our investments at June 30, 2013 and March 31, 2013 approximate fair value as of those dates based on the market in which we operate and other conditions in existence at those reporting periods.

Investments. Investments are stated at fair value determined by our Board of Directors as described in Notes to the Consolidated Schedule of Investments and Note 3 below. The average cost method is used in determining cost of investments sold. Investments are recorded on a trade date basis.

Cash and Cash Equivalents. Cash and cash equivalents consist of highly liquid investments with an original maturity of three months or less at the date of purchase. Cash and cash equivalents are carried at cost, which approximates fair value.

Segment Information. We operate and manage our business in a singular segment. As an investment company, we invest in portfolio companies in various industries and geographic areas as presented in the Consolidated Schedule of Investments.

Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Interest and Dividend Income. Interest and dividend income is recorded on an accrual basis to the extent amounts are expected to be collected. Dividend income is recorded at the ex-dividend date for marketable securities and restricted securities. In accordance with our valuation policy, accrued interest and dividend income is evaluated periodically for collectability. When a debt or loan becomes 90 days or more past due, and if we otherwise do not expect the debtor to be able to service all of its debt or other obligations, we will generally establish a reserve against the interest income, thereby placing the loan or debt security's status on non-accrual basis, and cease to recognize interest income on that loan or debt security until the borrower has demonstrated the ability and intent to pay contractual amounts due. If a loan or debt security's status significantly improves regarding ability to service debt or other obligations, it will be restored to accrual basis.

Federal Income Taxes. CSW and CSVC have elected and intend to comply with the requirements of the Internal Revenue Code (IRC) necessary to qualify as regulated investment companies (RICs). By meeting these requirements, we will not be subject to corporate federal income taxes on ordinary income distributed to shareholders. In order to comply as a RIC, each company is required to timely distribute to its shareholders at least 90% of investment company taxable income, as defined by the IRC, each year. Investment company taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses. Investment company taxable income generally excludes net unrealized appreciation or depreciation, as investment gains and losses are not included in investment company taxable income until they are realized.

In addition to the requirement that we must annually distribute at least 90% of our investment company taxable income, we may either distribute or retain our realized net capital gains from investments, but any net capital gains not distributed may be subject to corporate level tax. When we retain the capital gains, they are classified as a "deemed distribution" to our shareholders and are subject to our corporate tax rate of 35%. As an investment company that qualifies as a RIC under the IRC, federal income taxes payable on security gains that we elect to retain are accrued only on the last day of our tax year, December 31. Any capital gains actually distributed to shareholders are generally taxable to the shareholders as long-term capital gains. See Note 4 for further discussion.

CSMC, a wholly owned subsidiary of CSW, is not a RIC and is required to pay taxes at the current corporate rate.

We account for interest and penalties as part of operating expenses. There were no interest or penalties incurred during the three months ended June 30, 2013 and 2012.

Deferred Taxes. CSMC sponsors a qualified defined benefit pension plan which covers its employees and employees of certain of its controlled affiliates. Deferred taxes related to the qualified defined benefit pension plan are recorded as incurred.

Stock-Based Compensation. We account for our stock-based compensation using the fair value method, as prescribed by ASC 718, *Compensation – Stock Compensation*. Accordingly, we recognize stock-based compensation cost over the straight-line method for all share-based payment awards granted to employees. The fair value of stock options are determined on the date of grant using the Black-Scholes pricing model and are expensed over the vesting period of the related stock options. For restricted stock awards, we measured the grant date fair value based upon the market price of our common stock on the date of the grant and will amortize this fair value to share-based compensation expense over the vesting term. For phantom stock options, the option value of phantom stock awards is calculated based on the net asset value of the Corporation. We value the plan each quarter and either increase or decrease the liability based on the phantom option value. See Note 6 for further discussion.

Defined Pension Benefits and Other Postretirement Plans. We record annual amounts relating to the defined benefit pension plan based on calculations, which include various actuarial assumptions such as discount rates and assumed rates of return depending on the pension plan. Material changes in pension costs could occur to changes in the discount rate, changes in the expected long-term rate of return, changes in level of contributions to the plans and other factors. The funded status is the difference between the fair value of plan assets and the benefit obligation. We recognize changes in the funded status of our defined benefit plan in the Statement of Assets and Liabilities in the year in which the changes occur and measure defined benefit plan assets and obligations as of the date of the employer's fiscal year-end. We presently use March 31 as the measurement date for our defined benefit plan.

Concentration of Risk. We place our idle cash in financial institutions, and at times, such balances may be in excess of the federally insured limits.

3. INVESTMENTS

We record our investments at fair value as determined in good faith by our Board of Directors in accordance with GAAP. When available, we base the fair value of our investments on directly observable market prices or on market data derived for comparable assets. For all other investments, inputs used to measure fair value reflect management's best estimate of assumptions that would be used by market participants in pricing the investments in a hypothetical transaction.

The levels of fair value inputs used to measure our investments are characterized in accordance with the fair value hierarchy established by ASC. We use judgment and consider factors specific to the investment in determining the significance of an input to a fair value measurement. While management believes our valuation methodologies are appropriate and consistent with market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. The three levels of the fair value hierarchy and investments that fall into each of the levels are described below:

- *Level 1:* Investments whose values are based on unadjusted quoted prices in active markets for identical assets or liabilities that we have the ability to access. We use Level 1 inputs for publicly traded unrestricted securities. Such investments are valued at the closing price for listed securities and at the lower of the closing bid price or the closing sale price for NASDAQ securities on the valuation date.
- *Level 2:* Investments whose values are based on observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in non-active markets, quoted prices for similar instruments in active markets and similar data. We did not value any of our investments using Level 2 inputs as of June 30, 2013.

- *Level 3*: Investments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the investment. We used Level 3 inputs for measuring the fair value of approximately 71.0% of our investments as of June 30, 2013.

As required by ASC 820, when the inputs used to measure fair value fall within different levels of the hierarchy, the level within the fair value measurement is categorized based on the lowest level input that is significant to the fair value measurement which may include inputs that are observable (Levels 1 and 2) and unobservable (Level 3). Therefore, gains and losses for such investments categorized within the Level 3 table below may include changes in fair value that are attributable to both observable inputs (Levels 1 and 2) and unobservable inputs (Level 3). We conduct reviews of fair value hierarchy classifications on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification of certain investments.

Unobservable inputs are those inputs for which little or no market data exists and, therefore, require an entity to develop its own assumptions. The fair value determination of each portfolio company requires one or more of the following unobservable inputs:

- Financial information obtained from each portfolio company, including audited and unaudited statements of operations and balance sheets for the most recent period available as compared to budgeted numbers;
- Current and projected financial condition of the portfolio company;
- Current and projected ability of the portfolio company to service its debt obligations;
- Projected operating results of the portfolio company;
- Current information regarding any offers to purchase the investment or recent private sales transactions;
- Current ability of the portfolio company to raise any additional financing as needed;
- Change in the economic environment which may have a material impact on the operating results of the portfolio company;
- Qualitative assessment of key management;
- Contractual rights, obligations or restrictions associated with the investment; and
- Other factors deemed relevant.

Preferred Stock and Common Stock

The significant unobservable inputs used in the fair value measurement of our equity securities are EBITDA multiples, revenue multiples, net book values, and tangible book value multiples. Generally, increases or decreases in EBITDA or revenue multiple inputs result in a higher or lower fair value measurement, respectively. However, due to the nature of certain investments, fair value measurements may be based on other criteria, such as third party appraisals. For recent investments, we generally rely on our cost basis to determine the fair value unless fair value is deemed to have departed from this level.

Debt Securities

The significant unobservable inputs used in the fair value measurement of our debt securities are risk adjusted discount factors used in the yield valuation technique and probability of principal recovery. Significant increase or decrease in any of these valuation inputs in isolation would result in a significantly lower or higher fair value measurement. However, due to the nature of certain investments, fair value measurements may be based on other criteria, such as third party inputs.

Limited Partnership or Limited Liability Company Interests

For recent investments, we generally evaluate limited partnership or limited liability company interests at cost, which is deemed to represent fair value, unless or until there is substantive evidence that cost does not correspond to fair value. Thereafter, these securities are generally valued at our percentage interest of the fund or company's calculated net asset value, unless there is substantive evidence that the net asset value does not correspond to fair value. All investments of each fund are valued by each fund in accordance with ASC 820.

Warrants

We generally use the Black-Scholes option pricing model to determine the fair value of warrants held in our portfolio. Option pricing models, including the Black-Scholes model, require the use of subjective inputs, including expected volatility, expected life, expected dividend rate, and expected risk-free rate of return. In the Black-Scholes model, variation in the expected volatility or expected term assumptions has a significant impact on fair value.

The table below presents the valuation technique and quantitative information about the significant unobservable inputs utilized by the Company to value our Level 3 investments as of June 30, 2013 and March 31, 2013. Unobservable inputs are those inputs for which little or no market data exists and therefore require an entity to develop its own assumptions. The table is not intended to be all inclusive, but instead captures the significant unobservable inputs relevant to our determination of fair value.

Type	Valuation Technique	Fair Value at 6/30/2013 (in millions)	Unobservable Input	Range	Weighted Average
Preferred & Common Equity	Market Approach	\$ 355.1	EBITDA Multiple	4.00x – 7.00x	6.42x
	Market Approach	\$ 11.2	Revenue Multiple	0.25x – 2.54x	1.29x
	Market Approach	\$ 7.8	Cash and Asset Value	NA	NA
	Income Approach	\$ 0.7	Discount Rate	1.75%	1.75%
	Market Approach	\$ 3.0	Multiple of Tangible Book Value	1.21x	1.21x
	Market Approach	\$ 27.4	Recent Transaction Price	NA	NA
	Market Approach	\$ 0.2	Market Value of Held Securities	NA	NA
		\$ 405.4			
Debt	Income Approach	\$ 2.0	Discount Rate	10.02%	10.02%
	Recent Transaction Price	\$ 3.5	Recent Transaction Price	NA	NA
		\$ 5.5			
Partnership Interests	Net Asset Value*	\$ 10.6	Fund Value	NA	NA
	Total	\$ 421.5			

Type	Valuation Technique	Fair Value at 3/31/2013 (in millions)	Unobservable Input	Range	Weighted Average
Preferred & Common Equity	Market Approach	\$ 342.2	EBITDA Multiple	3.25x – 7.00x	6.45x
	Market Approach	\$ 11.1	Revenue Multiple	0.25x – 1.82x	0.97x
	Market Approach	\$ 7.9	Cash and Asset Value	NA	NA
	Income Approach	\$ 0.7	Discount Rate	1.75%	1.75%
	Market Approach	\$ 3.0	Multiple of Tangible Book Value	1.22x	1.22x
	Market Approach	\$ 22.6	Recent Transaction Price	NA	NA
	Market Approach	\$ 0.2	Market Value of Held Securities	NA	NA
		\$ 387.7			
Debt	Income Approach	\$ 3.1	Discount Rate	10.02%	10.77%

		\$ 6.6		NA	NA
Partnership Interests	Net Asset Value*	\$ 12.2	Fund Value	NA	NA
	Total	\$ 406.5			

*All funds are valued in accordance with ASC 820.

As of June 30, 2013 and March 31, 2013, 71.0% and 70.8%, respectively, of our portfolio investments were categorized as Level 3.

The following fair value hierarchy tables set forth our investment portfolio by level as of June 30, 2013 and March 31, 2013 (in millions):

Asset Category	Total	Fair Value Measurements at 6/30/13 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Debt	\$ 5.5	\$ –	\$ –	\$ 5.5
Partnership Interests	10.6	–	–	10.6
Preferred Equity	53.0	–	–	53.0
Common Equity	524.3	171.9	–	352.4
Total Investments	\$ 593.4	\$ 171.9	\$ –	\$ 421.5

Asset Category	Total	Fair Value Measurements at 3/31/13 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Debt	\$ 6.6	\$ –	\$ –	\$ 6.6
Partnership Interests	12.2	–	–	12.2
Preferred Equity	44.6	–	–	44.6
Common Equity	510.8	167.7	–	343.1
Total Investments	\$ 574.2	\$ 167.7	\$ –	\$ 406.5

The following table provides a summary of changes in the fair value of investments measured using Level 3 inputs during the quarter ended June 30, 2013 (in millions):

	Fair Value 3/31/13	Net Unrealized Appreciation (Depreciation)	New Investments	Divestitures	Net Changes from Unrealized to Realized	Conversion of Security from Debt to Equity	Fair Value at 6/30/13
Debt	\$ 6.6	\$ (1.1)	\$ -	\$ -	\$ -	\$ -	\$ 5.5
Partnership Interests	12.2	(2.4)	0.8	-	-	-	10.6
Preferred Equity	44.6	0.4	8.0	-	-	-	53.0
Common Equity	343.1	9.3	-	-	-	-	352.4
Total Investments	\$ 406.5	\$ 6.2	\$ 8.8	\$ -	\$ -	\$ -	\$ 421.5

4. INCOME TAXES

We operate to qualify as a RIC under Subchapter M of the IRC and have a calendar tax year end of December 31. In order to qualify as a RIC, we must annually distribute at least 90% of our investment company taxable ordinary income, based on our tax year, to our shareholders in a timely manner. Investment company ordinary income includes net short-term capital gains but excludes net long-term capital gains. A RIC is not subject to federal income tax on the portion of its ordinary income and long-term capital gains that are distributed to its shareholders, including “deemed distributions” discussed below. As permitted by the Code, a RIC can designate dividends paid in the subsequent tax year as dividends of current year ordinary income and net long-term gains if those dividends are both declared by the extended due date of the RIC’s federal income tax return and paid to shareholders by the last day of the subsequent tax year.

We have distributed or intend to distribute sufficient dividends to eliminate taxable income for our completed tax years. If we fail to satisfy the 90% distribution requirement or otherwise fail to qualify as a RIC in any tax year, we would be subject to tax in such year on all of our taxable income, regardless of whether we made any distributions to our shareholders. For the tax years ended December 31, 2012 and 2011, we declared and paid ordinary dividends in the amounts of \$3,025,032 and \$3,003,030, respectively.

Additionally, we are subject to a nondeductible federal excise tax of 4% if we do not distribute at least 98% of our investment company ordinary taxable income before the end of our tax year. For the tax years ended December 31, 2012 and 2011, we distributed 100% of our investment company ordinary taxable income. As a result, we have made no tax provisions for income taxes on ordinary taxable income for the tax years ended December 31, 2012 and 2011.

A RIC may elect to retain its long-term capital gains by designating them as “deemed distribution” to its shareholders and paying a federal tax rate of 35% on the long-term capital gains for the benefit of its shareholders. Shareholders then report their share of the retained capital gains on their income tax returns as if it had been received and report a tax credit for tax paid on their behalf by the RIC. Shareholders then add the amount of the “deemed distribution” net of such tax, to the basis of their shares.

Historically, we have not distributed net capital gains; however, during the tax year ended December 31, 2012, we distributed capital gains dividends in the amount of \$17.59 per share to our shareholders. For the tax year ended December 31, 2012, we had net long-term capital gains of \$3,214,547 for tax purposes and \$2,319,012 for book purposes, which we elected to retain and treat as deemed distributions to our shareholders. For the tax year ended December 31, 2011, we had net long-term capital gains of \$3,568,376 for tax purposes and \$4,465,088 for book purposes, which we elected to retain and treat as deemed distributions to our shareholders.

In order to make the election to retain capital gains, we incurred federal taxes on behalf of our shareholders in the amount of \$1,125,092 for the tax year ended December 31, 2012. For the tax year ended December 31, 2011, we incurred federal taxes on behalf of our shareholders in the amount of \$1,248,932.

For the quarter ended June 30, 2013 and 2012, CSW and CSVC qualified to be taxed as RICs. We intend to meet the applicable qualifications to be taxed as a RIC in future years. Management feels it is probable that we will maintain our RIC status for a period longer than one year. However, either company's ability to meet certain portfolio diversification requirements of RICs in future years may not be controllable by such company.

CSMC, a wholly owned subsidiary of CSW, is not a RIC and is required to pay taxes at the current corporate rate. CSMC sponsors a qualified defined benefit pension plan which covers its employees and employees of certain of its wholly owned portfolio companies. Deferred taxes related to the qualified defined pension plan are recorded as incurred.

5. ACCUMULATED NET REALIZED GAINS (LOSSES) ON INVESTMENTS

Distributions made by RICs often differ from aggregate GAAP-basis undistributed net investment income and accumulated net realized gains (total GAAP-basis net realized gains). The principal cause of the difference is that required minimum fund distributions are based on income and gain amounts determined in accordance with federal income tax regulations, rather than GAAP. The differences created can be temporary, meaning that they will reverse in the future, or they can be permanent. In subsequent periods, when all or a portion of a temporary difference becomes a permanent difference, the amount of the permanent difference will be reclassified to "additional capital."

We incur federal taxes on behalf of our shareholders as a result of our election to retain long-term capital gains. We had \$10,491,526 and \$10,436,526 of accumulated long term capital gains, as of June 30, 2013 and March 31, 2013, respectively.

6. EMPLOYEE STOCK BASED COMPENSATION PLANS

Stock Options

On July 20, 2009, shareholders approved our 2009 Stock Incentive Plan (the "2009 Plan"), which provides for the granting of stock options to employees and officers and authorizes the issuance of common stock upon exercise of such options for up to 140,000 shares. All options are granted at or above market price, generally expire up to 10 years from the date of grant and are generally exercisable on or after the first anniversary of the date of grant in five annual installments. Options to purchase 38,750 shares at a price of \$76.74 per share (market price at the time of grant) were granted on October 19, 2009. Additionally, options to purchase 20,000 shares at a price of \$95.79 per share (market price at time of grant) were granted on March 22, 2010, options to purchase 15,000 shares at a price of \$88.20 per share were granted on July 19, 2010 and options to purchase 10,000 shares at a price of \$96.92 per share were granted on July 18, 2011. During the three months ended June 30, 2013, 400 options were exercised, thus leaving 42,327 options outstanding and 70,250 options available to grant under the 2009 Plan.

We previously granted stock options under our 1999 Stock Option Plan (the “1999 Plan”), as approved by shareholders on July 19, 1999. The 1999 Plan expired on April 19, 2009. Options previously made under our 1999 Stock Option Plan and outstanding on July 20, 2009 continue in effect governed by provisions of the 1999 Plan. All options granted under the 1999 Plan were granted at or above market price, generally expire up to 10 years from the date of grant and are generally exercisable on or after the first anniversary of the date of grant in five to ten annual installments. During the three months ended June 30, 2013, 4,500 options were exercised, thus leaving 57,000 options outstanding under the 1999 Plan.

We recognize compensation cost over the straight-line method for all share-based payments granted on or after that date and for all awards granted to employees prior to April 1, 2006 that remain unvested on that date. The fair value of stock options is determined on the date of grant using the Black-Scholes pricing model and are expensed over the vesting period of the related stock options. Share-based compensation cost for restricted stocks is measured based on the closing fair market value of our Company’s common stock on the date of the grant. Accordingly, for the quarters ended June 30, 2013 and 2012, we recognized stock option compensation expense of \$143,161 and \$244,770, respectively.

As of June 30, 2013, the total remaining unrecognized compensation cost related to non-vested stock options was \$754,377, which will be amortized over the weighted-average service period of approximately 0.9 years.

The following table summarizes the 2009 Plan and the 1999 Plan price per option at grant date using the Black-Scholes pricing model:

Date of Issuance	Weighted Average Fair Value	Black-Scholes Pricing Model Assumptions			Expected Life (in years)
		Expected Dividend Yield	Risk- Free Interest Rate	Expected Volatility	
<u>2009 Plan</u>					
July 18, 2011	\$ 33.07	0.83%	1.45%	40.0%	5
July 19, 2010	\$ 28.58	0.91%	1.73%	37.5%	5
March 22, 2010	\$ 32.56	0.84%	2.43%	37.8%	5
October 19, 2009	\$ 25.36	1.04%	2.36%	37.6%	5
<u>1999 Plan</u>					
July 30, 2008	\$ 29.93	0.62%	3.36%	20.2%	5
July 21, 2008	\$ 27.35	0.67%	3.41%	20.2%	5
July 16, 2007	\$ 41.78	0.39%	4.95%	19.9%	5
July 17, 2006	\$ 33.05	0.61%	5.04%	21.2%	7
May 15, 2006	\$ 31.28	0.64%	5.08%	21.1%	7

The following table summarizes activity in the 2009 Plan and the 1999 Plan as of June 30, 2013:

	Number of Shares	Weighted Average Exercise Price
<u>2009 Plan</u>		
Balance at March 31, 2011	73,750	\$ 84.24
Granted	10,000	96.92
Exercised	—	—
Canceled/Forfeited	—	—
Balance at March 31, 2012	83,750	85.75
Granted	—	—
Exercised	(27,023)	79.82
Canceled/Forfeited	(14,000)	85.78
Balance at March 31, 2013	42,727	89.49
Granted	—	—
Exercised	(400)	95.79
Canceled/Forfeited	—	—
Balance at June 30, 2013	42,327	\$ 89.38
<u>1999 Plan</u>		
Balance at March 31, 2011	96,500	\$ 114.78
Granted	—	—
Exercised	(1,500)	65.70
Canceled/Forfeited	—	—
Balance at March 31, 2012	95,000	113.63
Granted	—	—
Exercised	(19,105)	95.33
Canceled/Forfeited	(14,395)	111.14
Balance at March 31, 2013	61,500	132.00
Granted	—	—
Exercised	4,500	93.49
Canceled/Forfeited	—	—
Balance at June 30, 2013	57,000	135.04
Combined Balance at June 30, 2013	99,327	\$ 115.58

	Weighted Average Aggregate Intrinsic Remaining Contractual Term	Value
June 30, 2013		
Outstanding	0.9 years	\$ 3,203,091
Exercisable	0.4 years	\$ 2,093,781

At June 30, 2013, the range of exercise prices and weighted-average remaining contractual life of outstanding options was \$88.20 to \$152.98 and 0.9 year, respectively. The total number of options exercisable under both the 2009 Plan and the 1999 Plan at June 30, 2013 and 2012, was 59,827 shares with a weighted-average exercise price of \$130.44 and 55,200 with a weighted-average exercise price of \$127.69, respectively. During the quarter ended June 30, 2013 and 2012, 4,900 and 34,890 options were exercised, respectively.

Stock Awards

Pursuant to the Capital Southwest Corporation 2010 Restricted Stock Award Plan, our Board of Directors reserved for issuance 47,000 shares of restricted stock to certain key employees. A restricted stock award is an award of shares of our common stock (which have full voting and dividend rights but are restricted with regard to sale or transfer), the restrictions on which lapse ratably over a specified period of time (generally five years). Restricted stock awards are independent of stock option grants and are subject to forfeiture if employment terminates prior to these restrictions lapsing. These shares vest over a five-year period from the grant date and are expensed over the five-year service period starting on the grant date. On January 16, 2012, the Board of Directors granted 9,650 shares of restricted stock to key employees of the Company. On January 22, 2013, the Board of Directors granted 2,000 shares of restricted stock to officers of the Company. During the three months ended June, 2013, 750 shares of restricted stock were forfeited. The following table summarizes the restricted stock available for issuance as of June 30, 2013:

Restricted stock available for issuance as of March 31, 2013	38,350
Restricted stock granted during the quarter	–
Restricted stock forfeited during the quarter	750
Restricted stock available for issuance as of June 30, 2013	39,100

We expense the cost of the restricted stock awards, which is determined to equal the fair value of the restricted stock award at the date of grant on a straight-line basis over the vesting period in which the restrictions on these stock awards lapse. For these purposes, the fair value of the restricted stock award is determined based on the closing price of our common stock on the date of grant. For the quarters ended June 2013 and 2012, we recognized total share based compensation expense of \$30,406 and \$31,997, respectively, related to the restricted stock issued to our employees and officers.

As of June, 2013, the total remaining unrecognized compensation cost related to non-vested restricted stock awards was \$506,539, which will be amortized over the weighted-average service period of approximately 3.7 years.

The following table represents a summary of the activity for our restricted stock awards for the quarter ended June 30, 2013:

Restricted Stock Awards	Number of Shares	Weighted Average Fair Value Per Share	Weighted Average Remaining Vesting Term (in Years)
Unvested at March 31, 2013	7,320	\$ 89.27	4.1
Granted	–	–	–
Vested	–	–	–
Forfeited	750	104.34	4.6
Unvested at June 30, 2013	6,570	\$ 87.55	3.7

Phantom Stock Plan

On January 16, 2012, our Board of Directors approved the issuance of 26,000 phantom stock options at an exercise price of \$146.95 (Net Asset Value at December 31, 2011) pursuant to the Capital Southwest Corporation Phantom Stock Option Plan to provide deferred compensation to certain key employees. On January 22, 2013, the Board of Directors granted 4,050 shares of phantom stock options at an exercise price of \$165.37 per share (Net Asset Value at December 31, 2012) to officers of the Company. Under the plan, awards vest on the fifth anniversary of the award date. Upon exercise of the phantom option, a cash payment in an amount for each phantom share equal to estimated fair market value minus the phantom option exercise price, adjusted for capital gain dividends declared, will be distributed to plan participants. For the quarter ended June 30, 2013 and the year ended March 31, 2013, we recognized estimated liability for phantom stock options in the amount of \$938,190 and \$693,401, respectively.

The following table represents a summary of the activity for our phantom stock plan for the fiscal year ended June 30, 2013:

Phantom Stock Awards	Number of Shares	Exercise Price Per Share	Weighted Average Remaining Vesting Term (in Years)
Unvested at March 31, 2013	22,550	\$ 149.05	4.0
Granted	-	-	-
Vested	-	-	-
Forfeited or expired	(1,800)	\$ 165.37	-
Unvested at June 30, 2013	20,750	\$ 148.95	3.7

7. COMMITMENTS

From time to time the Company may be liable for claims against its portfolio companies. We do not believe the effects of such claims would have a material impact on our results of operations and financial condition.

CSC has agreed, subject to certain conditions, to invest up to \$4,934,042 in seven portfolio companies as of June 30, 2013.

8. SUMMARY OF PER SHARE INFORMATION

The following presents a summary of per share data for the three months ended June 30, 2013 and 2012.

Per Share Data	Three Months Ended June 30,	
	2013	2012
Investment income	\$.27	\$.38
Operating expenses	(.60)	(.37)
Income taxes	.01	(.01)
Net investment loss	(.32)	.00
Distributions from undistributed net investment income	(.40)	(.40)
Net realized gain	.01	17.61
Net increase (decrease) in unrealized appreciation of investments	2.73	(20.67)
Distribution from Undistributed net realized gains	-	(17.59)
<i>Capital Share transactions:</i>		
Exercise of employee stock options	(.10)	(.74)
Forfeiture of restricted stock*	.03	
Stock option expense	.05	.07
Increase (decrease) in net asset value	2.00	(21.72)
Net asset value		
Beginning of period	173.20	167.45
End of period	\$ 175.20	\$ 145.73

*Reflects impact of the different share amounts as a result of issuance or forfeiture of restricted stock during the period.

9. SUBSEQUENT EVENT

A 4:1 stock split was approved by our shareholders on July 15, 2013 when they approved our proposal to increase the authorized Common Stock of the Company from 5,000,000 shares, par value of \$1.00 per share, to 25,000,000 shares par value \$0.25 per share, to effect a 4:1 split of the issued Common Stock of the Company in the form of a dividend to shareholders of three additional shares of common stock for each share held as of July 31, 2013. Each shareholder of record at the close of business on the record date will receive a dividend of three additional shares of common stock for each share then held. The new shares are expected to be distributed on August 15, 2013 (distribution date). Our shares outstanding and the market price of our stock will be adjusted on August 16, 2013 (ex-dividend date) to reflect the 4:1 stock split.

The following table presents the pro forma effect of the stock split on our per share data for the three months ended June 30, 2013:

Per Share Data	Three Months Ended June 30, 2013	
	As Reported	Pro Forma Shares
Shares outstanding	3,813,466	15,253,864
Investment income	\$.27	\$.07

End of period	\$ 175.20	\$ 43.80

*Reflects impact of different share amount as a result of issuance or forfeiture of restricted stock during the period.

Item 2. – Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our financial statements and the notes thereto included elsewhere in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013 (the “Form 10-K”).

The information contained herein may contain “forward-looking statements” based on our current expectations, assumptions and estimates about us and our industry. These forward-looking statements involve risks and uncertainties. Words such as “believe,” “anticipate,” “estimate,” “expect,” “intend,” “plan,” “will,” “may,” “might,” “could,” “continue” and other similar expressions identify forward-looking statements. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of several factors more fully described in “Risk Factors” and elsewhere in this Form 10-Q, and in our Form 10-K for the year ended March 31, 2013. The forward-looking statements made in this Form 10-Q related only to events as of the date on which the statements are made. You should read the following discussion in conjunction with the consolidated financial statements and related footnotes and other financial information included in our Form 10-K for the year ended March 31, 2013. We undertake no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

Results of Operations

The composite measure of our financial performance in the Consolidated Statements of Operations is captioned “Increase in net assets from operations” and consists of three elements. The first is “Net investment income,” which is the difference between income from interest, dividends and fees and combined operating and interest expenses, net of applicable income taxes. The second element is “Net realized gain (loss) on investments,” which is the difference between the proceeds received from disposition of portfolio securities and their stated cost, net of applicable income tax expense based on the Company’s tax year. The third element is the “Net increase in unrealized appreciation of investments,” which is the net change in the market or fair value of the Company’s investment portfolio, compared with stated cost. It should be noted that the “Net realized gain (loss) on investments” and “Net increase in unrealized appreciation of investments” are directly related in that when an appreciated portfolio security is sold to realize a gain, a corresponding decrease in net unrealized appreciation occurs by transferring the gain associated with the transaction from being “unrealized” to being “realized.” Conversely, when a loss is realized on a depreciated portfolio security, an increase in net unrealized appreciation occurs.

Net Investment Income

For the three months ended June 30, 2013, total investment income was \$1,054,945, a \$395,920, or 27.3% decrease from the \$1,450,865 total investment income for the three months ended June 30, 2012. This comparable period decrease was primarily attributable to Cinatra Clean Technologies, Inc.'s fully reserved interest income during the first quarter of fiscal year 2013 and CapitalSouth Partners Fund III, L.P.'s distribution of profits of \$104,053 during the first quarter of fiscal year 2012.

The Company's principal objective is to achieve capital appreciation. Therefore, a significant portion of the investment portfolio is structured to maximize the potential return from equity participation and provides minimal current yield in the form of interest or dividends. The Company also earns interest income from the short-term investment of cash funds, and the annual amount of such income varies based upon the average level of funds invested during the year and fluctuations in short-term interest rates. During the three months ended June 30, 2013 and 2012, the Company had interest income from temporary cash investments of \$17,926 and \$20,418, respectively.

The Company's management fees, received primarily from its controlled affiliates, totaled \$139,950 and \$143,950 for the three months ended June 30, 2013 and 2012, respectively.

During the three months ended June 30, 2013 and 2012, the Company recorded dividend income from the following sources:

	Three Months Ended June 30,	
	2013	2012
Alamo Group, Inc.	\$ 198,261	\$ 169,818
Encore Wire Corporation	26,250	81,735
The RectorSeal Corporation	240,000	240,000
TCI Holdings, Inc.	20,318	20,318
The Whitmore Manufacturing Company	60,000	60,000
	<u>\$ 544,829</u>	<u>\$ 571,871</u>

Due to the nature of its business, the majority of the Company's operating expenses are related to officer and employee compensation, office expenses, legal, professional and accounting fees. Total operating expenses increased by \$886,000 or 62.5% for the quarter ended June 30, 2013 as compared to the quarter ended June 30, 2012. This increase is primarily due the \$852,000, or 138%, increase in salaries related to bonus and phantom options accruals recorded during the quarter ended June 30, 2013. Bonus and phantom option accruals were first recorded during the quarter ended December 31, 2012 for the nine month period. There were no bonus or phantom option accruals recorded during the quarter ended June 30, 2012. Consequently there is no offsetting accrual to compare to for the prior year.

Net Realized Gain (Loss) on Investments

During the quarter ended June 30, 2013, we received a capital gain dividend in the amount of \$55,000 from Diamond State Venture, L.P.

During the quarter ended June 30, 2012, we sold 2,774,250 shares of common stock in Encore Wire Corporation held by our subsidiary, CSVC, to Encore Wire generating a capital gain of \$66,037,485. We also sold 50,000 shares of common stock of Hologic, Inc. generating a capital gain of \$850,548. In addition, we declared and paid a cash dividend in the amount of \$17.59 per share of common stock. As a result, we have undistributed net realized gains of \$62,251 during the first quarter ended June 30, 2012.

Management does not attempt to maintain a consistent level of realized gains from year to year, but instead attempts to maximize total investment portfolio appreciation. This strategy often dictates the long-term holding of portfolio securities in pursuit of increased values and increased unrealized appreciation, but may at opportune times dictate realizing gains or losses through the disposition of certain portfolio investments.

Net Increase/(Decrease) in Unrealized Appreciation of Investments

For the quarter ended June 30, 2013, we recognized a \$10,391,960 increase in net change in unrealized appreciation of investments. The largest increases in unrealized appreciation are attributable to Alamo Group, Inc., which increased by \$7,295,566 due to an increase in its stock price at June 30, 2013, while The RectorSeal Corporation increased by \$6,000,000; The Whitmore Manufacturing Company increased by \$2,100,000; and Media Recovery, Inc. increased by \$1,500,000 due to increases in the entities' respective earnings. Offsetting these increases were Hologic, Inc., which decreased by \$1,923,306, and Encore Wire Corporation, which decreased by \$1,194,375 due to a decrease in each respective entity's stock price at June 30, 2013. Additionally, Cinatra Clean Technologies, Inc. decreased by \$1,170,995 due to under performance in their market.

Set forth in the following table are the significant increases and decreases in unrealized appreciation by portfolio company:

	Three Months Ended June 30,	
	2013	2012
Alamo Group, Inc.	\$ 7,295,566	\$ 3,663,258
BankCap Partners Fund I, L.P.	175,000	(42,000)
Capital South Partners Fund III, L.P.	(2,224,000)	110,000
Cinatra Clean Technologies, Inc.	(1,170,995)	573,607
Discovery Alliance	(425,000)	455,000
Encore Wire Corporation	(1,194,375)	(85,722,585)*
Hologic, Inc.	(1,923,306)	(3,105,727)*
Media Recovery, Inc.	1,500,000	(3,300,000)
The RectorSeal Corporation	6,000,000	7,500,000
The Whitmore Manufacturing Company	2,100,000	1,000,000

* During the quarter ended June 30, 2012, we sold 2,774,250 shares of common stock in Encore Wire Corporation held by our subsidiary, CSVC, to Encore Wire generating a capital gain of \$66,037,485. We also sold 50,000 shares of common stock of Hologic, Inc. generating a capital gain of \$850,548.

A description of the investments listed above and other material components of the investment portfolio are included elsewhere in this report under the caption "Consolidated Schedule of Investments – June 30, 2013 and March 31, 2013."

Portfolio Investments

During the quarter ended June 30, 2013, we invested \$8,000,000 in Deepwater Corrosion Services, Inc., a full service corrosion control company providing the oil and gas industry with expertise in cathodic protection and asset integrity management. Deepwater's products and services provide life extension to and support regulatory compliance of mission-critical, energy production assets. In addition, we funded \$842,000 in commitments to existing portfolio companies.

We have commitments, subject to certain conditions, to invest up to \$4,934,042 in seven portfolio companies as of June 30, 2013.

Financial Liquidity and Capital Resources

At June 30, 2013, the Company had cash and cash equivalents of approximately \$70.2 million. Pursuant to the SBA regulations, cash and cash equivalents of \$25.3 million held by CSVC may not be transferred or advanced to CSC without notifying the SBA.

Management believes that the Company's cash and cash equivalents and cash available from other sources described above are adequate to meet its expected requirements. Consistent with the long-term strategy of the Company, the disposition of investments from time to time may also be an important source of funds for future investment activities.

Application of Critical Accounting Policies and Accounting Estimates

There have been no changes during the quarter ended June 30, 2013 to the critical accounting policies or the area that involve the use of significant judgments or estimates we described in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to financial market risks, including changes in marketable equity security prices. We do not use derivative financial instruments to mitigate any of these risks.

Our investment performance is a function of our portfolio companies' profitability, which may be affected by economic cycles, competitive forces, foreign currency fluctuations and production costs including labor rates, raw material prices and certain basic commodity prices. Most of the companies in our investment portfolio do not hedge their exposure to raw material and commodity price fluctuations. However, the portfolio company with the greatest exposure to foreign currency fluctuations generally hedges its exposure. All of these factors may have an adverse effect on the value of our investments and on our net asset value.

Our investment in portfolio securities includes fixed-rate debt securities which totaled \$5,495,005 at June 30, 2013, equivalent to 0.93% of the value of our total investments. Generally, these debt securities are below investment grade and have relatively high fixed rates of interest; therefore, minor changes in market yields of publicly traded debt securities have little or no effect on the values of debt securities in our portfolio and no effect on interest income. Our investments in debt securities are generally held to maturity and their fair values are determined on the basis of the terms of the debt security and the financial condition of the issuer.

A portion of our investment portfolio consists of debt and equity securities of private companies. We anticipate little or no effect on the values of these investments from modest changes in public market equity valuations. Should significant changes in market valuations of comparable publicly traded companies occur, there may be a corresponding effect on valuations of private companies, which would affect the value and the amount and timing of proceeds eventually realized from these investments. A portion of our investment portfolio also consists of unrestricted, freely marketable common stock of publicly traded companies. These freely marketable investments, which are valued at the public market price, are directly exposed to equity price risks because a change in an issuer's public market equity price would result in an identical change in the value of our investment in such security.

Item 4. Controls and Procedures

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of our management, including the President and Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based upon this evaluation, our President and Chief Executive Officer and our Chief Financial Officer have concluded that our current disclosure controls and procedures are effective in timely alerting them of material information relating to us that is required to be disclosed in the reports we file or submit under Securities Exchange Act of 1934.

During the fiscal quarter ended June 30, 2013, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

PART II. – OTHER INFORMATION

Item 1. Legal Proceedings

We may, from time to time, be involved in litigation arising out of our operations in the normal course of business or otherwise. Furthermore, third parties may try to seek to impose liability on us in connection with the activities of our portfolio companies. We have no current pending legal proceedings to which we are party or to which any of our assets is subject.

Item 1A. Risk Factors

There have been no material changes to our risk factors disclosed in Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013.

Item 6. Exhibits

<u>Exhibit No.</u>	<u>Description</u>
31.1	Certification of President and Chief Executive Officer required by Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), filed herewith.
31.2	Certification of Chief Financial Officer required by Rule 13a-14(a) of the Exchange Act, filed herewith.
32.1	Certification of President and Chief Executive Officer required by Rule 13a-14(b) of the Exchange Act and Section 1350 of Chapter 63 of Title 18 of the United States Code, furnished herewith.
32.2	Certification of Chief Financial Officer required by Rule 13a-14(b) of the Exchange Act and Section 1350 of Chapter 63 of Title 18 of the United States Code, furnished herewith.

SIGNATURES

Pursuant to the requirements the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

CERTIFICATIONS

I, Joseph B. Armes certify that:

1. I have reviewed this interim report on Form 10-Q of Capital Southwest Corporation (the “registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.
