Strategic partners for long-term growth

Launches Aerospace Sector Investment Effort

Capital Southwest has added an aerospace sector focus to its existing key sectors which include energy services & products, industrial technologies and specialty chemicals & products.

The aerospace sector is led by Scott Shedd, who has invested in several manufacturers of aerospace components for turbine engines, motion control, fluid control and aircraft wheel and brake applications.

Our Areas of Interest Include:

- Avionics
- Airframe Systems
- Components
- Materials
- Power Systems
- Production

Investment Criteria:

- Location: Must be headquartered in the United States
- Revenue: Approaching or above \$10 million
- Investment Size: \$10 million-plus

Capital Southwest

Since Capital Southwest was formed in 1961, we have always sought to invest in companies with strong management teams and sound financial performance. As a public company, we are fortunate to have the flexibility to hold investments indefinitely. It is our dedication to this patient investment strategy that enables our portfolio companies to achieve their full potential.

Our extensive experience and our attentive, long-term investment strategy make us unique. As of December 31, 2012, we have \$628.2 million in net assets under management and are actively pursuing new investments.
